February 17, 2006

To the Honorable Board of Supervisors and the Citizens of the County of Nevada

The Comprehensive Annual Financial Report (CAFR) of the County of Nevada for the fiscal year ended June 30, 2005 is hereby submitted in compliance with Sections 25250 & 25253 of the Government Code of the State of California. These statutes require all general-purpose local governments to issue an annual report on the financial position and activities of that government. The report must be presented in conformance with generally accepted accounting principles (GAAP) and must be audited by an independent firm of certified public accountants in conformance with generally accepted auditing standards (GAAS). The financial statements contained in this CAFR meet these requirements.

This report contains management representations and is prepared by the Office of the Auditor-Controller. The responsibility for both accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the County. We believe the data, as presented, is accurate in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and changes in financial position of the various funds of the County.

The purpose of this report is to give the Board of Supervisors, the residents of Nevada County and other users a broader view and understanding of County financial operations and to further assist the users of our financial statements in assessing the financial condition of the County.

The CAFR is organized into three sections: introductory, financial, and statistical. *The Introductory Section* is intended to familiarize the reader with the organizational structure and key personnel of the County and to describe the nature and extent of the services it provides. *The Financial Sectio*n presents the independent auditor's report, the audited basic financial statements and accompanying footnotes, required supplementary information, combining statements, individual fund statements and supplementary information. And *the Statistical Section* contains statistical, demographic and miscellaneous information that may be useful in assessing the financial condition of the reporting entity.

The financial statements contained in this CAFR have been audited by Bartig, Basler & Ray, a Professional Corporation of Certified Public Accountants (BB&R). Their audit was performed in accordance with GAAS. The auditors have concluded, based on their audit, that the financial statements combined with the accompanying footnotes present fairly, in all material respects, the financial condition of Nevada County as of June 30, 2005. A copy of their report is located at the front of the financial section of this CAFR. In planning and performing the audit of the financial statements, BB&R considered the internal control structure of the County in order to determine appropriate audit procedures.

During this review, no required reportable conditions were noted, however several opportunities to strengthen internal control and operating efficiency were recommended. This information was presented in a letter to the Board of Supervisors and management.

Management is required by GAAP (GASB 34) to provide a management discussion and analysis (MD&A) in conjunction with financial statement reporting. The purpose of the MD&A is to introduce the basic financial statements and to provide an analytical overview of the financial activities of the County. The MD&A can be found immediately following the report of the independent auditors.

In addition to the annual audit of this CAFR, the County is also required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the 1996 amendments to that act, and the US Office of Management and Budget Circular A-133, *"Audits of States, Local Governments and Non-Profit Organizations."* Information related to the single audit, including the schedule of expenditures of federal awards, findings and recommendations, and the auditors' report on the internal control and compliance with applicable laws and regulations, are presented in a separate publication.

## PROFILE OF THE COUNTY OF NEVADA

### General Information

With an area of about 978 square miles, the County of Nevada is situated in the gold country of northern California. The County is located about 60 miles northwest of Sacramento, 157 miles west of San Francisco, and 37 miles southeast of Reno. It is bordered by Sierra County to the north, Yuba County to the west, Placer County to the South, and the State of Nevada to the east.

### County Government

Nevada County was organized by an act of the legislature, approved May 18, 1851. Before that time it had been a part of Yuba County, but the growth of population and business following the gold rush of 1849-50 plus the distance of the courts for trial of important criminal and civil business, resulted in the move for a separate county organization.

The County is a general law county and is governed by a five-member Board of Supervisors, elected to serve four-year terms. Each is elected from one of the five supervisorial districts of the County. Supervisors from District 3 and 4 are elected in gubernatorial election years (1994, 1998, etc) while supervisors from Districts 1, 2 and 5 are elected in presidential years (1996, 2000, etc.). District boundaries are adjusted after every federal census to equalize district population as closely as possible.

The Board of Supervisors is the legislative and executive body of County government and also serves as the governing body of the Nevada County Sanitation District No.1 and the Nevada County Housing Authority. In addition, members of the Board represent the County on numerous intergovernmental bodies. In its legislative duties the Board adopts ordinances, resolutions and rules within the limits prescribed by State law and is responsible for seeing that all Federal and State mandated functions are properly discharged.

As an executive body, the Board determines annual budget allocation; approves contracts for public improvement projects and other specialized services; conducts public hearings on matters such as zoning appeals and planning issues; provides for the compensation of all County officials and employees; creates offices, boards and commissions as needed, appointing members and fixing the terms of office; directs an annual audit of all County accounts, books, and records; provides policy direction to the County Executive Officer for the operation and administration of County departments; and exercises executive authority for the provision of local government services to County residents.

The remaining elected officials are the Assessor, the Auditor-Controller, the Clerk-Recorder, the District Attorney, the Sheriff and the Treasurer-Tax Collector. The County Executive Officer (CEO) is appointed by the Board to run the day-to-day operations of the County.

**County Services**
Averaging 970 full-time equivalent employees, the County government provides a full range of public services including:

- Agricultural Commissioner
- Airport
- Child Protection and Social Services
- Child Support Collection
- Coroner
- Criminal Prosecution (District Attorney)
- Elections and Voter Registration
- Environmental Health
- Grand Jury
- Jail and Juvenile Facilities
- Law Enforcement in Unincorporated Areas
- Library
- Public and Mental Health Services
- Probation Supervision
- Public Assistance/Welfare to Work
- Public Defender
- Roads
- Solid Waste Disposal
- Tax Assessment and Collection
- Vital Statistics and Document Recording
- Weights and Measures

Typically, the department heads that run these operations, other than the elected department heads, are appointed by the CEO. One exception is the Chief Probation Officer, who is appointed by the Courts.

## LOCAL ECONOMY

**Labor Force**
The County's 2005 labor force totaled 49,410, an increase of 8.75 percent from 2000 figures. Nevada County's unemployment rate dropped to 5.4 percent in 2005, considerably below California's rate of 6.3 percent for the same year.

**Industry Employment**
Nevada County's industry employment increased by 3.3 percent (920 jobs), during the 2000-2004 profiled period. Three industries led job growth over these years: educational and health services; natural resources, mining and construction; and other services. Education and health services increased by 27.6 percent (830 jobs) while natural resources, mining, and construction gained 320 jobs (11 percent growth). Other services expanded by 32.5 percent, the second-fastest growth rate of all major industries during these years. Since 2000, agriculture employment more than doubled, adding 100 new jobs. Offsetting these gains, several industries posted losses: manufacturing; professional and business services; trade, transportation, and utilities; and information.

**Population**
The 2005 estimated population of the County is 98,955 up 3% from 2004, with about 68% of the residents living in the unincorporated areas. The Town of Truckee is the largest of the three cities within the County, with approximately 15,000 residents in 2004. Nevada City serves as the County seat with a population in 2004 of 3,000.

**Housing**
Population growth in Nevada County has directly impacted residential home prices. Real estate values of local properties continued to increase in calendar year 2005. According to MLS, approximately 391 homes in Nevada County have sold between July 19, 2004 and July 19, 2005. The average home price was $543,306.

## FACTORS AFFECTING FINANCIAL CONDITION

**Accounting Information**
The accounts of the County are organized on the basis of funds, each of which is considered a separate entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which the spending activities are controlled.

**Budgetary Process**
The County is required by State law to adopt a balanced budget by July 1 of each fiscal year. The process begins in February with budget instructions issued to departments by the County Executive Officer (CEO). Department heads are responsible for preparing and managing their budgets. The County Executive Office reviews departmental projections for expense and income accuracy, consistency with budget policies, and planned attainment of the County's goals and objectives. As a recommending body to the CEO, a Budget Subcommittee is appointed whose members provide a comprehensive review of department requests for service levels, funding, and staffing. The subcommittee consists of two members of the Board of Supervisors. Also serving as advisors are the elected Auditor-Controller, the County Executive Officer and the Deputy County Executive Officer. The board of Supervisors is responsible for adopting the budget, after considering it as a whole, and gauging its success in reflecting County goals and priorities for the community. After adoption of the budget, the County Executive Office staff reviews and monitors revenues and expenses quarterly and assists departments in fiscal management as necessary.

The County Auditor-Controller is responsible for monitoring and reporting expenditures within budgeted appropriations. Budget information is presented for the general and special revenue funds. This budget data is prepared on the modified accrual basis consistent with comparable actual amounts. Budgets are also adopted for the enterprise and internal service funds. Budget appropriations represent original amounts adjusted by budget transfers and appropriation amendments. Encumbrance accounting is utilized during the year for budget control purposes. However, encumbrances outstanding at year-end do not constitute expenditures or liabilities, but rather reserves of fund balances. Unencumbered budget appropriations lapse at the end of the fiscal year.

The CEO may approve transfers of appropriations between major objects of expenditure within the same service budget unit (SBU) and fund. The Board must approve amendments or transfers of appropriations between SBUs within any fund and supplemental appropriations necessary and normally financed by unanticipated revenues during the year. Any deficiency of budgeted revenues and other financing sources over expenditures and other financing uses is financed by beginning available fund balances.

**Property Tax Collection and Apportionment**
Property taxes levied countywide (secured, unsecured and unitary) rose in fiscal year 2004-05 to $18 million, an increase of 10.85% over the previous fiscal year total of $16.3 million. The Auditor-Controller calculates the local property tax bills based on assessed values as provided by the Assessor. The Treasurer-Tax Collector then distributes the tax bills and is charged with collection. In fiscal year 2004-05 the Auditor-Controller apportioned the revenue as follows:

- Nevada County General Fund: 15%
- Schools: 58%
- Special Districts: 18%
- Cities: 7%
- Redevelopment Agencies: 2%

**Transient Occupancy Tax (TOT):**
As of January 1, 2005, the administration of the Transient Occupancy Tax was delegated to the Treasurer and Tax Collector. The County's 10% tax is levied in the unincorporated area of Nevada County, on lodging fees where the lodger stays for 30-days or less. Transient Occupancy Tax (TOT) revenues decreased 31% to $123,000 in fiscal year 2004-05 due to city annexations.

**Debt Administration**
Contained within the County's tax code area are numerous municipalities, school districts and special-purpose districts providing public services. These entities have outstanding bonds issued in the form of general obligation bonds.

Direct debt constitutes debt directly issued by the County while overlapping debt constitutes that portion of the debt issued by different public entities within the same tax code area as the County's. The County is not responsible for overlapping debt of the other local agencies.

The County has $48,085,000 in direct debt outstanding as of June 30, 2005. This includes the 2001 Certificates of Participation, capital leases, special assessment debt, loans and notes payable, compensated absences, accrued claims payable and landfill post closure.

**Cash Management**
The County sponsors an investment pool that is managed by the County Treasurer-Tax Collector for the purpose of earning interest through investments. The State of California statutes require certain government entities and special districts to maintain their surplus cash with the County Treasurer-Tax Collector. Cash and investments for most County activities are included in the investment pool.

The California Government Code statutes and the County's investment policy govern the County's investment pool activity. The County's investment policy has the following objectives: safety, liquidity, and yield. Those statutes and policy authorize the County Treasurer-Tax Collector to invest in securities issued by the U.S. Government Treasury and its Agencies, certain corporate bonds and notes, bankers' acceptances, certificates of deposit, commercial paper, and repurchase agreements. The investment pool's maximum maturity limitation is 5 years. A Treasury Oversight Committee monitors and reviews the management of the County's investment pool. The County pool of investments earned an average rate of return for the fiscal year ending June 30, 2005 of 1.9%.

**Risk Management**
The County is a member of the CSAC Excess Insurance Authority, a public entity risk pool currently operating as a common risk management and insurance program for Counties. Under this program, the

Risk Management Funds provide coverage for up to a maximum of $100,000 for each general liability claim. In fiscal year 2004-05, the County maintained two layers of excess coverage for a total of $20.0 million of excess coverage.

The claims liability for General Liability self-insurance was approximately $955,000 at the end of fiscal 2005 and was funded at $1,545,000. Details on the Risk Management program are contained in the footnotes to the financial statements.

**Relevant Financial Issues**

California local governments are particularly vulnerable to State and Federal budgetary difficulties. The State of California acts as a pass-through entity for much of the County revenue. Reduction of revenues and delays in payment to the County will negatively affect the County budget and therefore decrease the ability to provide services.

With the State's implementation of the Educational Revenue Augmentation Fund III (ERAF III) program, Nevada County is required to shift an additional $503,388 in property tax revenue for each of the fiscal years 2004-05 and 2005-06 to the State of California to cover State shortfalls in schools funding. The State of California delayed payment to the County in revenue reimbursements of State mandate payments (SB90). The County has submitted for approval, claims totaling $2.6 million. The State has signified that the payment for approved claims will be remitted to the County in fiscal year 2006-07.

**Pension Benefits**

The County of Nevada is a member of the California Public Employee's Retirement System (CalPERS). Recent changes in actuarial assumptions and benefit levels have significantly increased pension cost estimates in coming years. Estimate of 27.224% cost of payroll for Safety Members and 8.518% cost of payroll for General Members in 2004-2005 up from 4.306% and 2.730% respectively in 2003-2004 has increased estimated payments to CalPERS from $1.6 million in fiscal year 2003-04 to $4.7 million in 2004-05.

**Acknowledgments**

I wish to express my appreciation to the staff in the Auditor-Controller's Office for their tremendous effort and dedication to the preparation of this report. I extend a special thanks to all the departments and agencies who contributed financial information to this report and to Bartig, Basler & Ray, CPA's, Inc. for their assistance and guidance in producing this CAFR. In addition, I would like to recognize the Board of Supervisors and the County Executive Office for their continued efforts in planning and conducting the financial operations of the County of Nevada.

Respectfully Submitted,

Marcia L. Salter

# INDEPENDENT AUDITOR'S REPORT

To the Board of Supervisors and Grand Jury
County of Nevada
Nevada, California

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County of Nevada, California, (the County), as of and for the year ended June 30, 2005, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the County's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the basic financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County as of June 30, 2005, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued under separate cover, our report dated December 7, 2005, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Member: American Institute of Certified Public Accountants, Private Companies Practice Section, California Society of Certified Public Accountants, Nevada Society of Certified Public Accountants, PKF North American Network

To the Board of Supervisors and Grand Jury
County of Nevada

The Management's Discussion and Analysis and the required supplementary information as listed in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the financial statements that collectively comprise the County of Nevada's basic financial statements. The introductory section, combining and individual fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

# MANAGEMENT’S DISCUSSION AND ANALYSIS

**COUNTY OF NEVADA**

Management's Discussion and Analysis
For the Fiscal Year Ended June 30, 2005

This section of the County of Nevada's (County's) comprehensive annual financial report presents our discussion and analysis of the County's financial performance during the fiscal year ended June 30, 2005. Please read it in conjunction with the transmittal letter at the front of this report and the County's basic financial statements following this section.

## FINANCIAL HIGHLIGHTS

- The assets of the County exceeded its liabilities at the close of the 2004-2005 fiscal year by $287,786,785 (net assets). Of this amount, $7,374,798 (unrestricted net assets) may be used to meet the County's ongoing obligations to citizens and creditors, $37,995,142 is restricted for specific purposes (restricted net assets), and $242,416,845 is invested in capital assets, net of related debt.

- The County's total net assets increased by $10,450,587. The governmental activities net assets at the close of 2004-2005 were $279,697,344 and the business-type activities net assets were $8,089,441.

- As of June 30, 2005, the County's governmental funds reported combined ending fund balances of $49,269,178 an increase of $7,903,212 in comparison with the prior year's ending fund balance. Approximately 66% of this total amount, $32,838,658 is *available* to meet the County's current and future needs *(unreserved fund balance).*

- At the end of the fiscal year, the unreserved and undesignated fund balance for the General Fund was $3,737,538, or 7.7% of total General Fund expenditures (inclusive of transfers out).

## OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements comprise three components: 1**) Government-wide** financial statements, 2) **Fund** financial statements, and 3) **Notes** to the basic financial statements. Required Supplementary Information is included in addition to the basic financial statements.

**Government-wide Financial Statements** are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the County's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *statement of activities* presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in a future fiscal period (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues *(governmental activities)* from other functions that are intended to recover all or a portion of their costs through user fees and charges *(business-type activities)*. The governmental activities of the County include general government, public protection, public ways and facilities, health and sanitation, public assistance, education and recreation. The business-type activities of the County include the Western Nevada County Solid Waste, Eastern Nevada County Solid Waste, Transit Services, and the Airport.

Component units are included in our basic financial statements and consist of legally separate entities for which the County is financially accountable and that have substantially the same board as the County or provide services entirely to the County. The County's component units are: Nevada County Sanitation District, Nevada County Housing Authority, and Nevada County Finance Authority.

*The government-wide financial statement can be found on pages 17-19 of this report.*

**Fund Financial Statements** are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

***Governmental funds*** are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows* and *outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds

statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains one hundred seven individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund and other major governmental funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual and grouped fund data for the non-major governmental funds are provided in the form of *combining statements* elsewhere in this report. A fund legend is provided at the end of this report.

*The governmental fund financial statements can be found on pages 22-28 of this report.*

**Proprietary funds** are maintained in two ways. Enterprise funds are used to report the same functions presented as *business-type activities* in the government-wide financial statements. *Internal service funds* are used to accumulate and allocate costs internally among the County's various functions. The County maintains eleven individual proprietary funds. The Western Nevada County Solid Waste, Eastern Nevada County Solid Waste, the Airport, Transit Services and Sanitation District are used for business-type activity. The County uses internal service funds to account for its Fleet Management, Vision Insurance, Unemployment Insurance, Liability Insurance, Dental Insurance and Central Services as these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. Western Nevada County Solid Waste, the Airport and the Sanitation District are considered to be major funds of the County and are presented individually. The County's non-major enterprise funds and the six internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for each of these nonmajor enterprise and internal service funds are provided in the form of *combining statements* elsewhere in this report.

*The proprietary fund financial statements can be found on pages 30-35 of this report.*

**Fiduciary funds** are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The County maintains three hundred ten fiduciary funds.

*The fiduciary fund financial statements can be found on pages 36-37 of this report.*

**Notes to the Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

*The notes can be found on pages 39-76 of this report.*

**Required Supplementary Information** is presented concerning the County's governmental funds budgetary basis, infrastructure assets reported using the modified approach. The County adopts an annual appropriated budget for its General Fund. A budgetary comparison schedule has been provided for the General Fund to demonstrate compliance with this budget.

*Required supplementary information can be found on pages 77-85 of this report.*

**Combining and individual fund statements and schedules** referred to earlier provide information for nonmajor governmental funds, nonmajor enterprise funds, internal service funds, and fiduciary funds and are presented immediately following the required supplementary information.

*Combining and individual fund statements and schedules can be found on pages 87-118 of this report.*

## GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may over time serve as a useful indicator of the County's financial position. On June 30, 2005, the County assets exceeded its liabilities by $287,786,785.

### County's Net Assets
### June 30, 2005 and 2004

| | Governmental Activities | | Business-Type Activities | | Total | | |
|---|---|---|---|---|---|---|---|
| | 2005 | 2004 | 2005 | 2004 | 2005 | 2004 | Variance % |
| **Assets:** | | | | | | | |
| Current and other assets | $ 57,354,425 | $ 51,710,748 | $ 15,145,740 | $ 13,853,281 | $ 72,500,165 | $ 65,564,029 | 10.58% |
| Capital assets | 251,157,165 | 251,471,298 | 19,327,437 | 18,655,042 | 270,484,602 | 270,126,340 | 0.13% |
| **Total Assets** | 308,511,590 | 303,182,046 | 34,473,177 | 32,508,323 | 342,984,767 | 335,690,369 | 2.17% |
| **Liabilities:** | | | | | | | |
| Long-term liabilities | 23,036,564 | 24,293,322 | 25,046,878 | 25,678,443 | 48,083,442 | 49,971,765 | -3.78% |
| Other liabilities | 5,777,682 | 7,516,703 | 1,336,858 | 865,703 | 7,114,540 | 8,382,406 | -15.13% |
| **Total Liabilities** | 28,814,246 | 31,810,025 | 26,383,736 | 26,544,146 | 55,197,982 | 58,354,171 | -5.41% |
| **Net Assets:** | | | | | | | |
| Invested in capital assets, net of related debt | 233,807,949 | 232,785,139 | 8,608,896 | 7,656,180 | 242,416,845 | 240,441,319 | 0.82% |
| Restricted | 37,995,142 | 31,297,665 | -- | -- | 37,995,142 | 31,297,665 | 21.40% |
| Unrestricted | 7,894,253 | 7,289,217 | (519,455) | (1,692,003) | 7,374,798 | 5,597,214 | 31.76% |
| **Total Net Assets** | $ 279,697,344 | $ 271,372,021 | $ 8,089,441 | $ 5,964,177 | $ 287,786,785 | $ 277,336,198 | 3.77% |

Of the County's total net assets, approximately 2.6% are unrestricted net assets that may be used to meet the County's ongoing obligations to citizens and creditors. 84.2% of the County's net assets reflect its investment in capital assets (e.g., land, buildings, equipment and other infrastructure), less any related debt used to acquire those assets that is still outstanding. The remaining portion of the County's net assets, 13.2% represents resources that are externally restricted in purpose.

## County's Change in Net Assets
## June 30, 2005 and 2004

| | Governmental Activities | | Business-Type Activities | | Total | |

| Net assets, beginning of year, restated | 271,386,510 | 274,565,164 | 5,972,417 | 9,819,083 | 277,358,927 | 284,384,247 |
| Net assets, end of year | $ 279,697,344 | $ 269,778,185 | $ 8,089,441 | $ 7,778,414 | $ 287,786,785 | $ 277,556,599 |

Key elements of the increase/decrease in revenues in the governmental activities:

- Property tax revenues overall growth was 10.85% from the prior year, primarily due to a strong real estate market.

- Other tax revenue category increased 100% from the prior year. This was due to the State of California's implementation of an allocation change titled the 'VLF Swap'. This change transferred additional property tax dollars to the County in lieu of Vehicle License Fees.

- Interest and investment earnings reflect an increase of 57.5%, which is primarily due to the increasing market interest rates and increased on-hand cash balances.

Key elements of the increase/decrease in expenses in the governmental activities pertain to reclassifications as follows:

- The General Government category decreased by 23%. This reduction was primarily due to the increased use of the reimbursement method required by GASB 34 for internal services provided by one County department to another. A credit entry is made to an expenditure account specifically for the reimbursement of internal services activity reducing the overall expenditures.

- Public Protection increased its expenditures by 7.7% due primarily to increases in the Salaries and Benefits category.

- Education category decreased in expenditures by 9.6% or $263,530. The majority of the decrease was within the Public Library Fund which had completed a one-time building improvement project in the prior fiscal year.

- Recreation category increased due to reclassification of activity that had previously been reported under Health and Safety. These are the expenditures from the recreation mitigation funds.

## FINANCIAL ANALYSIS OF THE COUNTY'S FUNDS

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

***Governmental funds.*** The general government functions are contained in the General Fund, Special Revenue, Debt Service, and Capital Project Funds. Included in these funds are the special districts governed by the Board of Supervisors. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable*

resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of the County's net resources available for spending at the end of the fiscal year.

**Governmental Funds**
**Combined Balance Sheet**
**June 30, 2005 and 2004**

| | Governmental Funds | | | |
|---|---|---|---|---|
| | 2005 | 2004 | Variance | Change |
| Total Assets | $ 58,128,578 | $ 53,490,148 | 8.67% | $ 4,638,430 |
| Total Liabilities | $ 8,859,400 | $ 12,124,182 | -26.93% | $ (3,264,782) |
| Fund Balance: | | | | |
| Reserved | $ 3,810,840 | $ 5,950,511 | -35.96% | $ (2,139,671) |
| Unreserved, reported in: | | | | |
| Designated | 3,737,538 | 7,122,612 | -47.53% | (3,385,074) |
| Undesignated | 3,737,538 | 1,971,791 | 89.55% | 1,765,747 |
| Special Revenue Funds | | | | |
| Undesignated | 32,838,658 | 26,321,052 | 24.76% | 6,517,606 |
| Undesignated | 36,576,196 | 28,292,843 | 29.28% | 8,283,353 |
| Total Fund Balance | 49,269,178 | 41,365,966 | 19.11% | 7,903,212 |
| Total Liabilities and Fund Balance | $ 58,128,578 | $ 53,490,148 | 8.67% | $ 4,638,430 |

As of June 30, 2005, the County's governmental funds reported combined ending fund balances in the amount of $49,269,178 an increase of 19% or $7,903,212 in comparison with the prior year's fund balance.

Approximately 66% of this total amount or $32,838,658 constitutes *undesignated fund balance*, which is available to meet the County's current and future needs. The remainder of fund balance is *reserved* to indicate that it is not available for new spending as it has been committed (1) to pay debt service, (2) to reflect inventories and the amount due from other funds that are long-term in nature and thus do not represent available spendable resources, and (3) to liquidate contractual commitments.

The General Fund is the chief operating fund of the County. At June 30, 2005, total fund balance was $11,274,036 of this amount $10,465,538 was unreserved. Of the Unreserved fund balance, $6,728,000 was designated for specific purposes and the remaining balance of $3,737,538 was undesignated. The fund balance of the County's General Fund increased by $1,403,845 during the fiscal year.

As a measure of the General Fund's liquidity, it may be useful to compare undesignated fund balance and total fund balance to total fund expenditures. Undesignated fund balance represents 7.7% of total fund expenditures (inclusive of transfers out), while total fund balance represents 23.2% of that same amount. Looking at the governmental funds as a whole, the General Funds undesignated fund balance represents 3.8% of total the governmental expenditures.

The following provides explanations of revenues by source that changed significantly over the prior year:

**Revenues Classified By Source**
**General Fund**
**(Dollars in Thousands)**

| Revenue Type | 2005 Amount | Percent of Total | FY 2004 Amount | Percent of Total | Increase (Decrease) Amount | Percentage of Change |
|---|---|---|---|---|---|---|
| Taxes and Assessments | $ 23,418 | 54.55% | $ 21,420 | 62.07% | $ 1,998 | 9.33% |
| License and Permits | 857 | 2.00% | 911 | 2.64% | -54 | -5.93% |
| Fines and Forfeitures | 1,806 | 4.21% | 1,958 | 5.67% | -152 | -7.76% |
| Use of Money and Property | 436 | 1.02% | 363 | 1.05% | 73 | 20.11% |
| Intergovernmental | 9,080 | 21.15% | 2,496 | 7.23% | 6,584 | 263.78% |
| Charges for Service | 6,215 | 14.48% | 6,310 | 18.28% | -95 | -1.51% |
| Other Revenues | 1,121 | 2.61% | 1,053 | 3.05% | 68 | 6.46% |
| Total | $ 42,933 | 100.00% | $ 34,511 | 100.00% | $ 8,422 | 24.40% |

*Taxes and Assessments* – The 9.33% increase in this category was due to an increase in secured property taxes. The secured property assessed values grew in the current fiscal year due primarily to strong home sales.

*Fine and Forfeitures* – The net decrease of 7.76% or $152,000 in this category was due to a $27,000 decrease in vehicle code fines, $60,000 decrease in the penalties and forfeits along with a $107,000 decrease in the tax delinquencies. The County did see a slight increase of $42,000 in Court fines.

*Intergovernmental* – The 263.78% or $6,584,000 increase in this category was due to the State of California's implementation of an allocation change titled the VLF Swap. This change transferred additional dollars, using the property allocation process, to the County in lieu of Vehicle License Fees (VLF).

*Other Revenues* – Of the 6.46% increase in this category, the largest single source was $102 from an accounting standard required entry recognizing the difference in the book and market value of the investments held by the County Treasury. In the prior fiscal year, this fair value adjustment was a decrease of approximately the same amount.

The following provides an explanation of expenditures by function that changed significantly over the prior year:

**Expenditures by Function**
**General Fund**
**(Dollars in Thousands)**

| Expenditures by Function | FY 2005 Amount | Percent of Total | FY 2004 Amount | Percent of Total | Increase (Decrease) Amount | Percentage of Change |
|---|---|---|---|---|---|---|
| General government | $ 7,610 | 18.61% | $ 8,433 | 21.74% | $ (823) | -9.75% |
| Public protection | 32,320 | 79.03% | 29,554 | 76.20% | 2,766 | 9.36% |
| Health and sanitation | - | 0.00% | - | 0.00% | - | 0.00% |
| Public Assistance | 200 | 0.49% | 180 | 0.46% | 20 | 11.18% |
| Education | 84 | 0.21% | 86 | 0.22% | (2) | -1.87% |
| Capital outlay | 656 | 1.60% | 505 | 1.30% | 151 | 29.90% |
| Debt Service | 23 | 0.06% | 25 | 0.06% | (2) | -9.01% |
| Total | $ 40,893 | 100.00% | $ 38,783 | 100.00% | $ 2,110 | 5.44% |

*General government* – The largest change is this category was due to the change in accounting treatment required in GASB 34 regarding the recording of transactions between the budget units within the government entity. The interfund revenues are now recorded as credits against the receiving budget unit's expenditures.

*Public Protection* – Key factors were an increase in salaries and benefits from the negotiated labor agreements and an increase in the County's overhead allocation to this category.

*Public Assistance* – The key factor in this category was the increase in salaries and benefits from the negotiated labor agreements accounting. The balance of the increase was an increase in the County's overhead allocation to this program area.

***Proprietary funds.*** The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets (deficits) of the Western Nevada County Solid Waste at June 30, 2005 amounted to ($11,422,404). Though the unrestricted net assets remain in a deficit, the enterprise operation did have a positive change in Net Assets in the amount of $2,059,155.

The change in net assets of the Airport enterprise operation amounted to a decrease of $240,637 for the fiscal year ending June 30, 2005. This decrease was due to an increase in operating expenses primarily in the Outside Services and Resale Fuel categories.

## GENERAL FUND BUDGETARY HIGHLIGHTS

The difference between the original budget and the final amended budget (including transfers in/out) resulted in $746,744 net decrease in amounts available for appropriation. Explanations of significant changes for this decrease are as follows:

- $895,763 increase in Intergovernmental revenues. This increase was due to certain State program revenues that were not expected to be available were later reinstated.

- $951,001 was the result of an increase in the Capital outlay budget category primarily for the purchase of a building.

- $614,798 was the result of an increase in the General Government budget category. This increase was primarily due to unanticipated election costs, technology purchases and additional transfers required to meet a voter approved road department funding commitment.

- $626,541 was the result of an increase in the Public Protection budget category primarily due to additional appropriations of funds for software and equipment purchases.

At fiscal year end, revenues were over the budgetary estimate by $802,382 or 2%, and expenditures were less than budgetary estimates by $2,974,798 or 7%. The net activity, including the transfers, increased the General Fund's fund balance by $1,403,845.

*Additional information on the General Fund and other major funds budget can be found on pages 78-83.*

## CAPITAL ASSETS AND DEBT ADMINISTRATION

**Capital assets** The County's investment in capital assets for its governmental and business-type activities as of June 30, 2005 amounted to $270,485,000 (net of accumulated depreciation). This investment in capital assets includes land, infrastructure, buildings and improvements, and equipment.

**County's Capital Assets**
(Net of depreciation)
**(Dollars in Thousands)**

| | Governmental Activities | | Business Type Activities | | Total | | Variance |
|---|---|---|---|---|---|---|---|
| | 2005 | 2004 | 2005 | 2004 | 2005 | 2004 | |
| Land and Easements | $ 99,343 | $ 99,205 | $ 3,444 | $ 3,444 | $ 102,787 | $ 102,649 | 0.13% |

| Capital Leases | 59 | 56 | - | - | 59 | 56 | 5.36% |
| Compensated Absences | 4,733 | 4,630 | 217 | 201 | 4,950 | 4,831 | 2.46% |
| Total | $ 23,037 | $ 24,294 | $ 25,048 | $ 25,678 | $ 48,085 | $ 49,972 | -3.78% |

The County's total outstanding debt decreased by $1,887,000 (or 3.8 %) during the fiscal year. The key factor for this decrease was the payment of the annual scheduled principal payments on the Certificates of Participation resulting in a $1,790,000 decrease in the outstanding debt in this category.

*Additional information on the County's long-term debt can be found in Note 7 on pages 64-66 of this report.*

**Infrastructure Assets Reported Under the Modified Approach**

The County is using the modified approach to account for the maintained road system. This method is in-lieu of the depreciation method used for all other assets. The County has set their average Pavement Condition Index (PCI) rating at 62. The rating must be achieved over a three year period by June 30, 2005. As of June 30, 2005, the County's maintained road system was rated at an average PCI index of 67.

*Additional information on the County's use of the Modified Approach can be found in Required Supplementary Information (RSI) on page 85 of this report.*

**Economic Factors and Next Year's Budget for FY 2005-06**

As we undertook our future planning efforts, we were confronted with the difficult fiscal challenges of our State's budget, which implemented a $1.3 billion shift of property tax revenues over the prior and current fiscal year from local governments. The County's share of this shift is $503,389 per year. The impacts of the State's strategies to balance the California budget are ever changing. Therefore, we were prudent in our fiscal planning and realistic with our expectations

about expanding the level of services that the County can provide in this climate. By working together in an open budget development process, we developed a strategy that we believe balances our community priorities and community resources.

The fiscal year 2005-06 adopted budget for all County funds totals $152,251,521, a 2.2 percent increase when compared to the prior year. The General Fund 2005-06 budget was $53,095,376, which was a 10.3 percent increase from the adopted 2004-05 budget.

The growth in property tax revenues are projected to increase by 12.6% for fiscal year 2005-06.

*The 2005-06 budget documents are available on the County's website*: *www.mynevadacounty.com*.

**Request for Information**

This financial report is designed to provide a general overview of the County's finances for all those with an interest in the County's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Office of the Nevada County Auditor-Controller, Marcia L. Salter, 950 Maidu Avenue, Nevada City CA 95959. This entire report is available online at *http://new.mynevadacounty.com/auditor/*.

Reconciliation of Total Governmental Fund Balances
to the Government-Wide Statement of Net Assets - Governmental Activities
June 30, 2005

| | |
|---|---|
| **Total Governmental Fund Balances** | $ 49,269,178 |
| Amounts reported for governmental activities in the statement of net assets are different because: | |
| Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds. | 249,662,164 |
| Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the governmental funds. | |
| Interest payable | (186,937) |
| Long-term debt | (22,062,758) |
| Internal service funds are used by management to charge the cost of certain activities, such as insurance and equipment maintenance and operations, to individual funds. The assets and liabilities of the internal service funds must be added to the statement of net assets. | 3,015,697 |
| **Net Assets of Governmental Activities** | $ 279,697,344 |

The accompanying notes are an integral part of these financial statements.

## COUNTY OF NEVADA, CALIFORNIA

Reconciliation of the Statement of Revenues, Expenditures
and Changes in Fund Balances of Governmental Funds to the
Government-Wide Statement of Activities - Governmental Activities
For the Year Ended June 30, 2005

| | | |
|---|---|---|
| **Net Change in Fund Balances - Total Governmental Funds** | | $ 7,888,723 |
| Amounts reported for governmental activities in the statement of activities are different because: | | |
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. | | |
| Expenditures for general capital assets, infrastructure, and other related capital asset adjustments | 2,090,097 | |
| Less: current year depreciation | (2,201,087) | |
| | | (110,990) |
| Governmental funds only report the disposal of assets to the extent proceeds are received from the sale. In the statement of activities, a gain or loss is reported for each disposal. This is the cost of the capital assets disposed. | | -- |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenue in the governmental funds. | | |
| Change in accounts receivable | | -- |
| Long-term debt proceeds provide current resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. | | |
| Principal repayments: | | |
| Certificates of participation | 1,340,000 | |
| Capital leases | 19,592 | 1,359,592 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures on the governmental funds. | | |
| Change in interest payable | 10,170 | |
| Change in compensated absences | (98,024) | (87,854) |
| Internal service funds are used by management to charge the cost of certain activities, such as insurance, equipment maintenance, and operations, to individual funds. The net revenue (expense) of certain internal service funds is reported with governmental activities. | | (738,637) |
| **Change in Net Assets of Governmental Activities** | | $ 8,310,834 |

The accompanying notes are an integral part of these financial statements.

Statement of Changes in Fiduciary Net Assets
Fiduciary Funds
For the Year Ended June 30, 2005

| | Investment Trust Funds |
|---|---|
| **ADDITIONS:** | |
| Contributions to investment pool | $ 309,585,632 |
| Investment income | 1,425,898 |
| **Total Additions** | 311,011,530 |
| **DEDUCTIONS:** | |
| Distributions from investment pool | 311,113,919 |
| **Total Deductions** | 311,113,919 |
| **Total Change in Net Assets** | (102,389) |
| **Net Assets - Beginning** | 59,088,549 |
| **Net Assets - Ending** | $ 58,986,160 |

The accompanying notes are an integral part of these financial statements.

# BASIC FINANCIAL STATEMENTS
# NOTES TO THE FINANCIAL STATEMENTS

## Note 1: Summary of Significant Accounting Policies

### A. Description of the Reporting Entity

The County operates under an Administrator-Board of Supervisors form of government and provides various services on a countywide basis including law and justice, education, detention, social, health, fire protection, road construction, road maintenance, transportation, park and recreation facilities, elections and records, communications, planning, zoning, and tax collection.

The governmental reporting entity consists of the County (Primary Government) and its component units which are legally separate organizations for which the Board is financially accountable or other organizations whose component units nature and significant relationship with the County are such that exclusion would cause the County's financial statements to be misleading or incomplete. Financial accountability is defined as the appointment of a voting majority of the component unit's board, and (i) either the County's ability to impose its will on the organization or (ii) there is potential for the organization to provide a financial benefit to or impose a financial burden on the County.

Reporting for component units on the County's financial statements can be blended or discretely presented. Blended component units are, although legally separate entities, in substance, part of the County's operations and, therefore, data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, would be reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

For financial reporting purposes, the County's basic financial statements include all financial activities that are controlled by or are dependent upon actions taken by the County's Board. The financial statements of the individual component units may be obtained by writing to the County of Nevada, Auditor-Controller's Office, 950 Maidu Avenue, Nevada City, CA 95959.

Blended Component Units

Component units that are blended into the reporting activity types of the County's report are presented below:

Special Revenue Funds:
- Nevada County Housing Authority
- Special assessment fund
- Special districts governed by the Board of Supervisors

Debt Service Funds:
- Nevada County Finance Authority

Enterprise Funds:
- Western Nevada County Solid Waste
- Airport
- Eastern Nevada County Solid Waste
- Transit Services
- Sanitation District

Note 1: **Summary of Significant Accounting Policies** (continued)

A. **Description of the Reporting Entity** (continued)

Discretely Presented Component Units

There are no component units of the County which meet the criteria for discrete presentation.

B. **Implementation of Governmental Accounting Standards Board Statements**

*GASB Statement No. 40*

At June 30, 2005, the County adopted the provisions of Governmental Accounting Standards Board (GASB) Statement No. 40, *Deposits and Investment Risk Disclosures* – an amendment of GASB Statement No. 3. The Statement modifies the custodial credit risk disclosures required by Statement No. 3. Deposits with financial institutions, investments (including repurchase agreements), and reverse repurchase agreements and addresses deposit and investment risks related to credit risk, concentration of credit risk, interest rate risk, and foreign currency risk.

Accordingly, the cash and investments disclosures has been revised to conform to the provisions of GASB Statement No. 40.

C. **Basis of Presentation**

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net assets and statement of activities display information about the primary government, the County, and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the governmental and business-type activities of the County. Governmental activities, which are normally supported by taxes and inter-governmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees charged to external parties.

The statement of activities demonstrates the degree to which the program expenses of a given function are offset by program revenues. Program expenses include direct expenses, which are clearly identifiable with a specific function, and allocated indirect expenses. Program revenues include 1) charges paid by the recipients of goods or services offered by the programs and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented instead as general revenues.

Note 1: **Summary of Significant Accounting Policies** (continued)

C. **Basis of Presentation** (continued)

GOVERNMENT-WIDE FINANCIAL STATEMENTS (continued)

When both restricted and unrestricted net assets are available, unrestricted resources are depleted first before the restricted resources are used.

FUND FINANCIAL STATEMENTS

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the County or meets the following criteria:

a. Total assets, liabilities, revenues or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and

b. Total assets, liabilities, revenues or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The County reports the following major governmental funds:

- The General Fund is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the County that are not accounted for through other funds. For the County, the General Fund includes such activities as public protection, public ways and facilities, health and welfare, public assistance, education, and recreation services.

- The Road Fund is a special revenue fund used to account for revenues and expenditures for streets and road expansion.

- The Community Development Agency fund is a special revenue fund used to account for the operation of community development programs.

- The Health and Welfare Realignment fund is a special revenue fund used to account for revenues and expenditures for public health programs.

Note 1: **Summary of Significant Accounting Policies** (continued)

C. **Basis of Presentation** (continued)

FUND FINANCIAL STATEMENTS (continued)

- The Motor Vehicle License fund is a special revenue fund used to account for revenues and expenditures for motor vehicle programs.

- The Human Services Agency fund is a special revenue fund used to account for revenues and expenditures for human service programs.

The County reports the following major enterprise funds:

- The Western Nevada County Solid Waste fund is an enterprise fund used to account for activity related to providing customers with solid waste management and billing for service provided by the County.

- The Airport fund is an enterprise fund used to account for activity related to the County Airport and billing for service provided by the County.

- The Sanitation District fund is an enterprise fund used to account for activity related to providing customers with sanitation management and billing for services provided by the County.

The County reports the following additional fund types:

- Internal Service Funds account for the County's fleet maintenance and self insurance programs which provide services to other departments on a cost reimbursement basis.

- The Investment Trust Funds account for the assets of legally separate entities that deposit cash with the County Treasurer. These entities include school and community college districts, other special districts governed by local boards, regional boards and authorities, and pass through funds for tax collections for cities. These funds represent the assets, primarily cash and investments, and the related liability of the County to disburse these monies on demand.

- Agency Funds account for assets held by the County as an agent for various local governments and for individuals.

Note 1: **Summary of Significant Accounting Policies** (continued)

D. **Basis of Accounting**

The government-wide, proprietary, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property and sales tax, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from sales tax are recognized when the underlying transactions take place. Revenues from grants, entitlements, and donation are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Property and sales taxes, interest, certain state and federal grants, and charges for services are accrued when their receipt occurs within sixty days after the end of the accounting period so as to be both measurable and available. Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures as well as expenditures related to claims and judgments are recorded only when payment is due. General capital assets acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and capital leases are reported as other financing sources.

For its business-type activities and enterprise funds, the County has elected, under Governmental Accounting Standards Board (GASB) Statement No. 20, Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting, to apply all applicable pronouncements as well as any applicable pronouncements of the Financial Accounting Standards Board, the Accounting Principles Board or any Accounting Research Bulletins issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The County has elected not to follow subsequent private-sector guidance. The GASB periodically updates its codification of the existing Governmental Accounting and Financial reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes accounting principles generally accepted in the United States of America (GAAP) for governmental units.

Note 1: **Summary of Significant Accounting Policies** (continued)

D. **Basis of Accounting** (continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise and internal service funds are charges to customers for sales and services.

Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

E. **Assets, Liabilities, and Equity**

Cash and Cash Equivalents

For purposes of the accompanying statement of cash flows, the enterprise funds consider all highly liquid investments with a maturity of three months or less when purchased, and their equity in the County Treasurer's investment pool, to be cash equivalents.

Investments

The County pools cash and investments with the County Treasurer. The pooled funds are invested in accordance with the County of Nevada's Investment Policy established pursuant to State law. All monies not required for immediate expenditure are invested or deposited to earn maximum yield consistent with safety and liquidity. Interest income from pooled investments is allocated to: 1) Those funds which are required by law or administrative action to receive interest; and, 2) Proprietary Funds. Interest is allocated quarterly based on the average daily aggregate cash balance in each fund.

The County follows the provisions of GASB Statement No. 31, Accounting and Financial Reporting for Certain Investment Pools, which require governmental entities to report certain investments at fair value in the balance sheet and recognize the corresponding change in the fair value of investments in the year in which the change occurred.

Note 1: **Summary of Significant Accounting Policies** (continued)

E. **Assets, Liabilities, and Equity** (continued)

Investments (continued)

The pool has not provided or obtained any legally binding guarantees during the period to support the value of the investments. The Nevada Treasury Oversight Committee is the regulatory oversight for the pool. A copy of their annual report is available at the Nevada County Treasurer-Tax Collector's office. The fair value of each participant's share in the pool is the same as the value of the pool share. Participants in the pool include involuntary participants such as special districts and school districts for which there are legal provisions regarding their investment in the Nevada County Treasury.

Investments are reported in the accompanying balance sheet at fair value which is determined using selected bases annually. Short term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Cash deposits are reported at carrying amount which reasonably estimates fair value. Managed funds not listed on an established market are reported at the estimated fair value as determined by the respective fund managers based on quoted sales prices of the underlying securities.

Under Section 53601 of the California Government Code, as amended, the collateral underlying a County's investments must be "delivered" to the County. If U.S. Treasury Bills are used as the underlying collateral, delivery may be made by book entry only. For all other collateral, the security must be physically delivered, either to the County or a third-party custodial agent.

Under California Senate Bill No. 2115, passed by the California Legislature in 1986, when a bank is used as a third-party custodial agent, the bank is permitted to maintain the underlying securities in either a "Trust Department" or a "Safekeeping Department". All of the County's investments except for the investment in LAIF and assessments bonds, as described in Note 7, are maintained in the "Safekeeping Departments" of applicable banks.

Receivables

In the government-wide statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for the governmental activities include taxes, grants, and interest. Business-type activities report user fees and interest earnings as their major receivables.

Note 1: **Summary of Significant Accounting Policies** (continued)

E. **Assets, Liabilities, and Equity** (continued)

Receivables (continued)

In the fund financial statements, material receivables in governmental funds include revenue accruals such as taxes, grants, interest, and other similar intergovernmental revenues since they are usually both measurable and available. Nonexchange transactions collectible but not available are deferred in the fund financial statements in accordance with modified accrual, but not deferred in the government-wide financial statements in accordance with the accrual basis. Interest and investment earnings are recorded when earned only if paid within 60 days since they would be considered both measurable and available. Proprietary fund material receivables consist of all revenues earned at year-end and not yet received. User fee receivable and interest earnings compose the majority of proprietary fund receivables. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable.

Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds that may result in amounts owed between funds. Those related to goods and services type transactions are classified as “due to and from other funds”. Short-term interfund loans are reported as “interfund receivables and payables”. Long-term interfund loans (noncurrent portion) are reported as “advances from and to other funds”.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not available financial resources. Interfund receivables and payables between funds within governmental activities are eliminated in the Statement of Net Assets. See Note 3 for details of interfund transactions, including receivables and payables at year-end.

Inventory and Prepaid Costs

Inventories are stated at average cost for governmental funds and proprietary funds. Inventory recorded by governmental funds includes postage and materials and supplies for roads. Governmental fund inventories are recorded as expenditures at the time the inventory is consumed. Reported inventories of governmental funds are equally offset by a fund balance reservation to indicate that portion of fund balance not available for future appropriation.

Certain payments to vendors reflect costs applicable to future accounting periods.

Note 1: **Summary of Significant Accounting Policies** (continued)

E. **Assets, Liabilities, and Equity** (continued)

Loans Receivables

For the purpose of the fund financial statements, Special Revenue Fund expenditures relating to long-term loans receivables arising from mortgage subsidy programs are charged to operations upon funding and the loans receivable are recorded. The balance of the long-term receivable includes loans that may be forgiven if certain terms and conditions of the loans are not met.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (roads, bridges, sidewalks, water, sewer, and similar items), are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with a cost of more than $5,000 for equipment and $25,000 for structures and infrastructure and an estimated useful life of more than two years. Such assets are recorded at historical or estimated historical cost. Contributed capital assets are recorded at estimated fair market value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

GOVERNMENT-WIDE STATEMENTS

In the government-wide financial statements, property, plant, equipment, and infrastructure are accounted for as capital assets. All capital assets are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation.

Prior to July 1, 2002, governmental funds infrastructure assets were not capitalized. These assets have been valued at estimated historical cost.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Assets. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

| Depreciable Asset | Estimated Lives |
|---|---|
| Equipment | 3-25 years |
| Structures and improvements | 5-50 years |
| Infrastructure (except for the maintained road system) | 20-75 years |

Note 1: **Summary of Significant Accounting Policies** (continued)

E. **Assets, Liabilities, and Equity** (continued)

GOVERNMENT-WIDE STATEMENTS (continued)

The maintained road system is reported using the modified approach. The County conducted a physical assessment of the maintained road system condition in fiscal year 2002-2003. This condition assessments will be performed every three years. The County's maintained road system has been classified as all paved or chip sealed roads in the County. The County uses the Metropolitan Transportation Commission's Pavement Management Software to maintain the pavement condition databases, to analyze the data and to make long-term pavement condition and budgetary forecasts.

Each road segment is rated and given a Pavement Condition Index (PCI) value from zero to one hundred (0-100), where PCIs of 40 or better are assigned to be a "Fair" or better condition and roads with PCIs of 55 or better to be in a "Good" or better condition. The County's policy relative to maintaining the maintained road system is to keep an average PCI rating of 62. This rating must be achieved over a three year period or by June 30, 2005. The fiscal year 2003/2004 PCI rating is 68.00. Accordingly, depreciation is not reported for this system and all expenditures, except for betterments and major improvements, made to the system are recorded as expenses.

Maintenance and repairs are charged to operation when incurred. Betterments and major improvements which significantly increase values, change capacities or extend useful lives are capitalized. Upon sale or retirement of fixed assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

FUND FINANCIAL STATEMENTS

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

Long-Term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Note 1: **Summary of Significant Accounting Policies** (continued)

E. **Assets, Liabilities, and Equity** (continued)

FUND FINANCIAL STATEMENTS (continued)

Long-Term Debt (continued)

All long-term debt to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term debt consists primarily of loans payable, accrued compensated absences, tax allocation bonds payable, and capital leases payable.

Long-term debt for governmental funds is not reported as a liability in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principle and interest reported as expenditures.

Compensated Absences

The County's policy regarding vacation is to permit employees to accumulate earned but unused vacation leave. The liability for these compensated absences is recorded as long-term debt in the government-wide statements. The current portion of this debt is estimated based on historical trends. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources, while the proprietary funds report the liability as it is incurred. The County includes its share of social security and medicare taxes payable on behalf of the employees in the accrual for compensated absences.

Equity Classifications

The government-wide and business-type fund financial statements utilize a net asset presentation. Equity is classified as net assets and displayed in three components:

a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets.

b. Restricted net assets – Consists of new assets with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.

c. Unrestricted net assets – All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Note 1: **Summary of Significant Accounting Policies** (continued)

E. **Assets, Liabilities, and Equity** (continued)

Equity Classifications (continued)

FUND STATEMENTS

In the governmental fund financial statements, governmental funds report reserves and designations as segregated portions of fund balance. Reservations of fund balance are for amounts that are not available or are legally restricted by outside parties for use for a specific purpose. Designation of fund balance are established by action of management and represent tentative plans that are subject to change. The County's reserves and designations at June 30, 2005, are comprised of the following:

| | General |
|---|---|
| Designated for: | |
| COP | $ 43,000 |
| Realignment | 300,000 |
| General | 1,877,000 |
| General plan update | 100,000 |
| Special projects | 590,000 |
| Leave liability | 1,650,000 |
| Technology | 1,168,000 |
| PERS pension | 1,000,000 |
| Total | $ 6,728,000 |

A description of reserves follows:

Reserved for Encumbrances – to reflect the outstanding contractual obligations for which goods and services have not been received.

Reserved for Inventory and Prepaids – to reflect the portion of assets which do not represent available, spendable resources.

Reserved for Advances – to reflect advances that are long-term in nature.

Reserved for Long-Term Receivables – to reflect the portion of fund balance relating to State required low-to-moderate income housing set aside.

Reserved for Debt Service – To reflect the funds held for future payment on debt principal and interest.

Note 1: **Summary of Significant Accounting Policies** (continued)

E. **Assets, Liabilities, and Equity** (continued)

Equity Classifications (continued)

FUND STATEMENTS (continued)

A description of designations follows:

Designated for COP Lease Payment – to reflect the funds the County has set aside to fund subsequent COP lease payments.

Designated for Realignment – to reflect the funds the County has set aside to fund subsequent Pot St. expenditures.

Designated for General – to reflect the funds the County has set aside to fund subsequent year expenditures and projects not yet approved.

Designated for Special Projects – to reflect six funds the County has set aside to fund subsequent projects.

Designated for Leave Liability – to reflect the funds the County has set aside to fund subsequent payments to retire compensated absences.

Designated for Technology – to reflect funds the County has set aside to fund subsequent upgrades. Designated for PERS Pension – to reflect funds the County has set aside to fund future PERS costs.

Designated for PERS Pension – to reflect funds the County has set aside to fund future PERS costs.

F. **Revenues, Expenditures, and Expenses**

Property Tax Levy, Collection and Maximum Rates

The State of California's (State) Constitution Article XIIIA provides that the combined maximum property tax rate on any given property may not exceed 1% of its assessed value unless an additional amount for general obligation debt has been approved by voters. Assessed value is calculated at 100% of market value, as defined by Article XIIIA, and may be adjusted by no more than 2% per year unless the property is sold or transferred. The State Legislature has determined the method of distribution of receipts from a 1 % tax levy among the County, cities, school districts, and other districts.

Note 1: **Summary of Significant Accounting Policies** (continued)

F. **Revenues, Expenditures, and Expenses** (continued)

Property Tax Levy, Collection and Maximum Rates (continued)

The County assesses properties and bills for and collects property taxes as follows:

The term "unsecured" refers to taxes on personal property other than land and buildings. These taxes are secured by liens on the property being taxed. Property tax revenues are recognized in the fiscal year for which they are levied, provided they are due and collected within sixty days after fiscal year-end.

The County apportions secured property tax revenue in accordance with the alternate methods of distribution, the "Teeter Plan", as prescribed by Section 4717 of the California Revenue and Taxation code.

Under the Teeter Plan, penalties and interest collected on delinquent secured taxes are required to be held in trust in the Tax Loss Recovery Fund (TLRF). The primary purpose of TLRF is to cover losses that may occur as a result of special sales of tax-defaulted property.

The County is legally required to maintain a minimum balance of 1% of the annual taxes levied on properties participating in the Teeter Plan. The balance in the Tax Loss Reserve Fund (TLRF) was $1,113,228 million at June 30, 2005. The County's management believes that any ownership rights to the TLRF the County may have are effective only upon a Board approved transfer or to the extent of losses related to the sale of tax defaulted property. Amounts in the TLRF are considered to be held in a custodial capacity for the participants in the County's Teeter Plan and accounted for in an agency fund.

Grant Revenues

Certain grant revenues are recognized when specific related expenditures have been incurred. In other grant programs, monies are virtually unrestricted as to purpose of expenditure and are only revocable for failure to comply with prescribed compliance requirements. These revenues are recognized at the time of receipt, or earlier if susceptible to accrual criteria is met. Cash received prior to incurrence of the related expenditure is recorded as deferred revenue.

Expenditures/Expenses

In the government-wide financial statements, expenses are classified by function for governmental activities.

Note 1: **Summary of Significant Accounting Policies** (continued)

F. **Revenues, Expenditures, and Expenses** (continued)

Expenditures/Expenses (continued)

In the fund financial statements, expenditures are classified as follows:

Government Funds – By Character
- Current (further classified by function)
- Debt Service
- Capital Outlay

Proprietary Fund – By Operating and Nonoperating

In the fund financial statements, governmental funds report expenditures of financial resources. Proprietary funds report expenses relating to use of economic resources.

Interfund Transfers

Permanent reallocation of resources between funds of the reporting entity are classified as interfund transfers. For the purposes of the Statement of Activities, all interfund transfers between individual governmental funds have been eliminated.

G. **Estimates**

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 2: **Stewardship, Compliance, and Accountability**

A. **Restatement of Equity**

Adjustments resulting from errors or a change to comply with the provisions of the accounting standards are treated as adjustments to prior periods. Accordingly, the County reports these changes as restatements of beginning net assets/fund balance. For the fiscal year ended June 30, 2005, the transit fund recorded an adjustment to account for prior year accumulated depreciation of $8,240 on surplused capital assets. The Community Development Agency fund identified a customer deposit of $32,533 earned in a prior year. The Housing and Community Services Fund overstated its long-term receivables by $18,044. Beginning net assets were reduced to reflect these adjustments in the government-wide and the fund financial statements.

Note 2: **Stewardship, Compliance, and Accountability** (continued)

B. **Deficit Fund Balance/Net Assets**

The following major enterprise funds had deficit fund balances at June 30, 2005:

The Western Nevada County Solid Waste fund had a fund balance deficit of $10,149,798, due to booking the postclosure liability of $13,635,078 in accordance with GASB Statement 18. The County has established a pledge of revenues consisting of parcel charges to demonstrate financial responsibility for postclosure maintenance in accordance with Section 18.283 and 18.290 of the California Code of Regulations.

The following internal service funds had deficit fund balances as of June 30, 2005:

The Unemployment Insurance fund had a deficit fund balance of $181,566 due to a marked increase in claims liability. This deficit will be eliminated in future years through an increase in rates charge to County departments for 2005-2006.

C. **Rebatable Arbitrage**

The County is obligated to calculate arbitrage rebates on all tax allocation bonds. There was no rebatable arbitrage liability at June 30, 2005.

D. **Gann Spending Limitation**

Under Article XIIIB of the California Constitution (the Gann Spending Limitation), the County is restricted as to the amount of annual appropriations from proceeds of taxes, and of proceed of taxes allowed appropriations, the excess must either be refunded to the State Controller or returned to the taxpayers through revised tax rates, revised fee schedules or other refund arrangements.

Note 3: **Cash and Investments**

The County sponsors an investment pool that is managed by the County Treasurer for the purpose of increasing interest earnings through investment activities. Cash and investments for most County activities are included in the investment pool. Interest earned on the investment pool is distributed to the participating funds using a formula based on the average daily cash balance of each fund.

Note 3: **Cash and Investments** (continued)

The investment pool includes both voluntary and involuntary participation from external entities. The State of California statutes require certain special districts and other governmental entities to maintain their cash surplus with the County Treasurer.

The County investment pool is not registered with the Securities and Exchange Commission as an investment company. Investments made by the Treasurer are regulated by the California Government Code and by the County's investment policy. The objectives of the policy are in order of priority, safety, liquidity, yield, and public trust. The County has established a treasury oversight committee to monitor and review the management of public funds maintained in the investment pool in accordance with Article 6 Section 27131 of the California Government Code. The oversight committee and the Board of Supervisors review and approve the investment policy annually. The County Treasurer prepares and submits a comprehensive investment report to the members of the oversight committee and the investment pool participants every month. The report covers the type of investments in the pool, maturity dates, par value, actual costs and fair value.

At June 30, 2005, total County cash and investments at fair value were as follows:

| | | |
|---|---|---|
| *Cash:* | | |
| Cash on hand | $ | 1,409,595 |
| Imprest cash | | 24,145 |
| Certificates of deposit | | 3,000,000 |
| Deposits (less outstanding warrants) | | 6,578,830 |
| Total cash | | 11,012,570 |
| *Investments:* | | |
| In Treasurer's pool | | 99,522,917 |
| With fiscal agents | | 3,476,351 |
| Total investments | | 102,999,268 |
| Total cash and investments | $ | 114,011,838 |

Total cash and investments at June 30, 2005 were presented on the County's financial statements as follows:

| | | |
|---|---|---|
| Primary government | $ | 53,799,708 |
| Investment trust fund | | 58,994,783 |
| Agency funds | | 1,217,347 |
| Total cash and investments | $ | 114,011,838 |

Note 3: **Cash and Investments** (continued)

Investments

The table below identifies the investment types that are authorized for the County by the California Government Code or the County's investment policy, where more restrictive. The table also identifies certain provisions of the County's investment policy that address interest rate risk, credit risk, and concentration risk.

| Authorized Investment Type | Maximum Maturity | Maximum Percentage Of Portfolio | Maximum Investment in One Issuer |
|---|---|---|---|
| Local Agency Bonds | 5 Years | None | None |
| U.S. Treasury Obligations | 5 Years | None | None |
| U.S. Agency Obligations | 5 Years | None | None |
| State of California Obligations | 5 Years | None | None |
| Banker's Acceptances | 180 | 40% | 30% |
| Commerical Paper - Select Agencies | 270 | 25% | 10% |
| Commercial Paper - Other Agencies | 270 | 40% | 10% |
| Negotiable Certificates of Deposit | 5 Years | 30% | None |
| Repurchase Agreements | 1 Year | None | None |
| Reverse Repurchase Agreements | 92 days | 20% of base | None |
| Medium Term Notes | 5 years | 30% | None |
| Mutual Funds/Money Market Mutual Funds | N/A | 20% | 10% |
| Collateralized Bank Deposits | 5 years | None | None |
| Mortgage Pass-Through Securities | 5 years | 20% | None |
| Time Deposits | 5 years | None | None |
| County Pooled Investment Funds | N/A | None | None |
| JPA Pools (other investment pools) | N/A | None | None |
| Local Agency Investment Fund (LAIF) | N/A | None | None |

At June 30, 2005, the County had the following investments:

| | Interest Rates | Maturities | Par | Cost | Fair Value | WAM (Years) |
|---|---|---|---|---|---|---|
| **Investments in Investment Pool** | | | | | | |
| U.S. government agency securities | 1.43% - 4.01% | 07/08/05 - 07/16/08 | $ 73,540,000 | $ 73,489,663 | $ 72,537,097 | 1.47 |
| Commercial paper | 2.89% - 3.40% | 07/05/05 - 09/15/05 | 25,000,000 | 24,880,072 | 24,932,670 | 0.08 |
| Mutual fund | Variable | On Demand | 2,053,150 | 2,053,150 | 2,053,150 | --- |
| **Total investments in investment pool** | | | 100,593,150 | 100,422,885 | 99,522,917 | 1.09 |
| **Investments Outside Investment Pool** | | | | | | |
| Mutual funds | Variable | On Demand | 3,476,351 | 3,476,351 | 3,476,351 | --- |
| **Total investments outside investment pool** | | | 3,476,351 | 3,476,351 | 3,476,351 | --- |
| **Total investments** | | | $ 104,069,501 | $ 103,899,236 | $ 102,999,268 | |

Note 3: **Cash and Investments** (continued)

Interest Rate Risk

The County manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to five years or less in accordance with its investment policy.

Credit Risk

State law and the County's Investment Policy limit investments in commercial paper to the rating of A1 by Standards & Poor's or P-1 by Moody's Investors Service. State law and the County's Investment Policy also limit investments in corporate bonds to the rating of A by Standard & Poor's and Moody's Investors Service. The County does not have credit limits on government agency securities.

Concentration of Credit Risk

State law restricts the County's investments in commercial paper to 40% of its investment pool and 10% per issuer. At June 30, 2005, the County was in full compliance with state law.

State law also limits the County's investments in mutual funds to 20% of its investment pool and 10% per issuer. At June 30, 2005 the County held 2.00% of its pooled investments in mutual funds.

The following is a summary of the credit quality distribution and concentration of credit risk by investment type as a percentage of the County Investment Pool's fair value at June 30, 2005.

| **Investments In Investment Pool** | S&P | Moody's | % of Portfolio |
|---|---|---|---|
| U.S. government agency securities | AAA | Aaa | 70.75% |
| Commercial paper | AAA | Aaa | 24.32% |
| Mutual fund | Unrated | Unrated | 2.00% |
| Certificates of deposit | Unrated | Unrated | 2.93% |
| | | | 100.00% |

Note 3: **Cash and Investments** (continued)

Custodial Credit Risk

For investments and deposits held with fiscal agents, custodial credit risk is the risk that, in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or deposits that are in the possession of an outside party. At year end, the County's investment pool and cash with fiscal agents had no securities exposed to custodial credit risk.

Investments with Fair Values Highly Sensitive to Interest Rate Fluctuations

The County's investments include the following investments that are highly sensitive to interest rate fluctuations (to a greater degree than already indicated in the information previously provided):

| Highly Sensitive Investments | Fair Value |
|---|---|
| Investments in asset backed securities. These securities are based on cash flows for payments on underlying loans. Therefore, they are sensitive to prepayments by borrowers, which may result from a decline in interest rates. | $ 72,537,097 |

County Investment pool Condensed Financial Statements

The following represents a condensed statement of net assets and changes in net assets for the Treasurer's investment pool as of June 30, 2005:

**Statement of Net Assets**

| | |
|---|---|
| Net assets held for pool participants | $ 110,535,487 |
| Equity of internal pool participants | $ 51,540,704 |
| Equity of external pool participants | 58,994,783 |
| Total net assets | $ 110,535,487 |

Note 3: **Cash and Investments** (continued)

County Investment pool Condensed Financial Statements (continued)

**Statement of Changes in Net Assets**

| | |
|---|---|
| Investment earnings | $ 2,569,039 |
| Investment expenses | (258,177) |
| Net withdrawals by pool participants | (172,684) |
| Increase in Net Assets | $ 2,138,178 |
| Net assets at July 1, 2004 | 108,397,309 |
| Net assets at June 30, 2005 | $ 110,535,487 |

Note 4: **Short-Term Debt**

The following is a summary of short-term liabilities transactions for the year ended June 30, 2005:

Business-Type Activities

| | Balance July 1, 2004 | Additions | Retirements | Balance June 30, 2005 |
|---|---|---|---|---|
| Line of credit | $ -- | $ 100,000 | $ -- | $ 100,000 |

Description of Debt

The District entered into a line of credit agreement with Bank of the West for the purpose of financing project costs for the Lake Wildwood Wastewater Treatment and Disposal Facility. The line of credit caps at $2,500,000 and is payable solely from Lake Wildwood Zone 1 enterprise revenues, and no other funds or revenues of the District, its other zones, or the County. The Agreement includes a covenant by the District to institute proceedings for the issuance and sale of revenue bonds, certificates of participation, other short-term notes or interim financing in an amount sufficient to pay the principal and interest on the loan. Advance requests must be for $100,000 or more. Interest is payable semi-annual on each re-payment date and shall accrue on the unpaid principal balance at a rate of 2.90% per annum. Repayment dates are January 1 and July 1 of each year, through October1, 2007, whereupon the term of the agreement ends and any unpaid principal and interest will be due at that time.

## Note 5: **Capital Assets**

Capital assets activity for the year ended June 30, 2005, was as follows:

| | Balance July 1, 2004 | Additions | Retirements | Balance June 30, 2005 |
|---|---|---|---|---|
| **Governmental Activities** | | | | |
| Capital assets, not being depreciated: | | | | |
| Land and easements | $ 99,204,634 | $ 137,897 | $ -- | $ 99,342,531 |

Depreciation expense was charged to the governmental functions as follows:

| | |
|---|---|
| General government | $ 472,261 |
| Public protection | 853,964 |
| Health and sanitation | 64,019 |
| Public assistance | 50,136 |
| Education | 6,485 |
| Public ways and facilities | 754,222 |
| Subtotal Governmental Funds | 2,201,087 |
| Depreciation on capital assets held by the County's internal service funds are charged to the various functions based on their usage of the assets | 436,170 |
| Total Depreciation Expense - Governmental Functions | $ 2,637,257 |

Note 5: **Capital Assets** (continued)

Depreciation expense was charged to the business-type functions as follows:

| | |
|---|---|
| Western Nevada County Solid Waste | $ 97,431 |
| Airport | 267,235 |
| Transit | 209,584 |
| Sanitation District | 408,557 |
| Total Depreciation Expense – Business-Type Functions | $ 982,807 |

Note 6: **Leases**

Capital Leases

The County has entered into certain capital lease agreements under which the related buildings will become the property of the County when all terms of the lease agreements are met.

The following is a summary of equipment leased under capital lease agreements by the County as of June 30, 2005:

| | Stated Interest Rate | Present Value of Remaining Payments at June 30, 2005 |
|---|---|---|
| Governmental Fund Activities: | | |
| Equipment | 5.90% - 11.91% | $ 59,216 |
| Total Capital Lease Obligations | | $ 59,216 |

The related depreciation on the equipment under capital leases is as follows:

| | Governmental Activities |
|---|---|
| Equipment | $ 94,436 |
| Less accumulated depreciation | (35,221) |
| Net Value | $ 59,215 |

Note 6: **Leases** (continued)

Capital Leases (continued)

As of June 30, 2005, future minimum lease payments under capital leases were as follows:

| Year Ended June 30 | Governmental Activities |
|---|---|
| 2006 | $ 28,866 |
| 2007 | 23,924 |
| 2008 | 7,527 |
| 2009 | 5,645 |
| Total requirements | 65,962 |
| Less interest | (6,746) |
| Present value of remaining payments | $ 59,216 |

Operating Leases

The County is committed under various noncancelable operating leases for buildings and equipment. The minimum future lease commitments on these leases are as follows:

| Year Ended June 30 | Payments |
|---|---|
| 2006 | $ 1,125,849 |
| 2007 | 440,017 |
| 2008 | 353,862 |
| 2009 | 112,233 |
| 2010-2014 | 29,975 |
| Total | $ 2,061,756 |

Rent expenditures were $1,877,765 for the year ended June 30, 2005.

## Note 7: **Long-Term Liabilities**

The following is a summary of long-term liabilities transactions for the year ended June 30, 2005:

| | Balance June 30, 2004 | Additions | Deletions | Balance June 30, 2005 | Amounts Due Within One Year |
|---|---|---|---|---|---|
| **Governmental Activities** | | | | | |
| Certificates of Participation | $ 18,630,000 | $ -- | $ 1,340,000 | $ 17,290,000 | $ 1,660,000 |
| Accrued claims liability | 977,573 | 77,000 | 99,665 | 954,908 | 954,908 |
| Capital Leases | 56,159 | 26,682 | 23,625 | 59,216 | 23,895 |
| Compensated Absences | 4,629,590 | 102,850 | -- | 4,732,440 | 4,732,440 |
| Total Governmental Activities Long-Term Liabilities | $ 24,293,322 | $ 206,532 | $ 1,463,290 | $ 23,036,564 | $ 7,371,243 |
| **Business-Type Activities** | | | | | |
| Certificates of Participation | $ 10,550,000 | $ -- | $ 450,000 | $ 10,100,000 | $ 460,000 |
| Loans Payable | 562,260 | -- | 43,719 | 518,541 | 46,359 |
| Special Assessment Bonds Payable | 478,000 | -- | 61,000 | 417,000 | 66,000 |
| Closure/Post-closure | 13,887,195 | 159,500 | 252,117 | 13,794,578 | -- |
| Compensated Absences | 200,988 | 15,771 | -- | 216,759 | 216,759 |
| Total Business-Type Activites Long-Term Liabilities | $ 25,678,443 | $ 175,271 | $ 806,836 | $ 25,046,878 | $ 789,118 |

As of June 30, 2005, annual debt service requirements of governmental activities to maturity are as follows:

| Year Ending June 30: | Governmental Activities Certificates of Participation Principal | Interest |
|---|---|---|
| 2006 | $ 1,660,000 | $ 718,123 |
| 2007 | 900,000 | 679,160 |
| 2008 | 880,000 | 650,248 |
| 2009 | 910,000 | 618,904 |
| 2010 | 940,000 | 584,785 |
| 2011-2015 | 5,290,000 | 2,298,100 |
| 2016-2020 | 6,710,000 | 910,178 |
| | $ 17,290,000 | $ 6,459,496 |

Note 7: **Long-Term Liabilities** (continued)

As of June 30, 2005, annual debt service requirements of business-type activities to maturity are as follows:

| Year Ending June 30: | Business-type Activities | | | | | |
|---|---|---|---|---|---|---|
| | Certificates of Participation | | Loans Payable | | Special Assessments Bonds Payable | |
| | Principal | Interest | Principal | Interest | Principal | Interest |
| 2006 | $ 460,000 | $ 450,549 | $ 46,359 | $ 23,252 | $ 66,000 | $ 26,425 |
| 2007 | 475,000 | 436,749 | 49,007 | 21,005 | 72,000 | 21,625 |
| 2008 | 490,000 | 421,074 | 51,664 | 18,628 | 77,000 | 16,450 |
| 2009 | 505,000 | 403,434 | 54,327 | 16,119 | 87,000 | 10,708 |
| 2010 | 530,000 | 384,244 | 57,001 | 13,480 | 92,000 | 4,395 |
| 2011-2015 | 2,990,000 | 1,571,019 | 201,332 | 35,512 | 11,000 | 4,475 |
| 2016-2020 | 3,750,000 | 800,500 | 58,849 | 3,126 | 12,000 | 1,200 |
| 2021-2025 | 900,000 | 45,000 | -- | -- | -- | -- |
| | $ 10,100,000 | $ 4,512,568 | $ 518,541 | $ 131,122 | $ 417,000 | $ 85,278 |

Long-term liabilities at June 30, 2005 consisted of the following:

| **Governmental Activities** | | | | | | |
|---|---|---|---|---|---|---|
| Certificates of Participation Payable | Date of Issue | Maturity | Interest Rates | Annual Principal Installments | Original Issue Amount | Outstanding at 6/30/2005 |
| 2002 Refunding of 1991 Certificates of | 2002 | 2020 | 4.05% - 5.25% | $880,000 - $1,660,000 | $ 21,385,000 | $ 17,290,000 |
| Total Governmental Activities | | | | | $ 21,385,000 | $ 17,290,000 |
| **Business-Type Activities** | | | | | | |
| Certificates of Participation Payable | | | | | | |
| 2002 Refunding of 1991 Certificates of | 2002 | 2021 | 2.30% - 5.00% | $425,000 - $900,000 | $ 11,415,000 | $ 10,100,000 |
| Loans Payable | | | | | | |
| CA Airport Loan | 1997 | 2011 | 6.06% | $10,340 - $24,701 | 258,500 | 128,676 |
| CA Airport Loan | 2001 | 2017 | 4.28% | $14,400 - $30,519 | 360,000 | 284,412 |
| SWRCB Revolving Loan | 1996 | 2016 | 3.10% | $6,417 - $11,116 | 170,367 | 105,453 |
| Total Loans Payable | | | | | 788,867 | 518,541 |
| Special Assessment Bonds Payable | | | | | | |
| North San Juan | 1998 | 2018 | 5.00% | $1,000 - $3,000 | 76,130 | 32,000 |
| Penn Valley | 1990 | 2009 | 6.06% | $35,000 - $9,000 | 1,264,703 | 385,000 |
| Total Special Assessment Bonds Payable | | | | | 1,340,833 | 417,000 |
| Total Business-Type Activities | | | | | $ 13,544,700 | $ 11,035,541 |

Note 7: **Long-Term Liabilities** (continued)

**Closure/Post Closure**

The County has two solid waste landfill sites: McCourtney Landfill and Hirschdale Landfill. The McCourtney Landfill is no longer an active landfill site and has been officially closed.

State and federal laws and regulations require that the County place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. The County recognizes a portion of the closure and postclosure care costs in each operating period even though actual payouts will not occur until a landfill is closed. The amount recognized each year to date is based on the landfill capacity used as of the balance sheet date.

The estimated liability of the County's landfill site for postclosure maintenance costs for the McCourtney Landfill was $13,635,078 as of June 30, 2005. The estimated total current cost of the landfill postclosure maintenance cost is based on the amount that would be paid if all equipment, facilities and services required to close, monitor and maintain the landfills were acquired as of June 30, 2005. However, the costs for landfill closure and postclosure maintenance are based on yearly estimates, reviewed by the California Integrated Waste Management Board, as prepared by the County. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County established a pledge of revenue to demonstrate financial responsibility for postclosure maintenance in accordance with Section 18.283 and 18.290 of the California Code of Regulations.

In addition to the McCourtney Landfill, the County also has the Hirschdale Landfill in Eastern Nevada County. The County has stopped adding solid waste to the Hirschdale Landfill in 2003-2004 and the closure/postclosure costs of the landfill were approved by the California Integrated Waste Management Board in 2004-2005; however, the landfill is not officially closed. The plans for the closure are contingent upon the approval of the Regional Water Quality Control Board. The approved estimate for closure costs for the landfill is $54,500 and $105,000 for postclosure maintenance costs. The County has recorded the landfill for $159,500; however, actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The County will utilize the available fund balances to demonstrate financial responsibility for postclosure maintenance in accordance with Section 18.283 of the California Code of Regulations.

## Note 8: Deferred Revenue

Governmental funds report deferred revenues in connection with receivables for revenues not considered available to liquidate liabilities of the current period. Governmental and enterprise funds also defer revenue recognition in connection with resources that have been received or accrued but not yet earned.

At June 30, 2005, the various components of deferred revenue and unearned revenue reported were as follows:

| | Unavailable | Unearned |
|---|---|---|
| *Governmental Activities:* | | |
| Due from governmental agencies | $ -- | $ 932,611 |
| Total Governmental Activities | $ -- | $ 932,611 |

## Note 9: Interfund Transactions

### Due To/From Other Funds

Operating receivables and payables between funds are classified as due from or due to other funds. The following are due from and due to balances as of June 30, 2005:

| Receivable Fund | Payable Fund | Amount | Purpose |
|---|---|---|---|
| General Fund | Road Fund | $ 3,241 | Services provided |
| | Community Development Agency | 14,075 | Services provided |
| | Motor Vehicle License Fees | 151,882 | Services provided |
| | Human Services Agency | 138,773 | Services provided |
| | Nonmajor Governmental Funds | 419,081 | Services provided |
| | Airport | 252 | Services provided |
| | Solid Waste | 1,817 | Services provided |
| | Nonmajor Enterprise Funds | 11,795 | Services provided |
| | Internal Service Funds | 55,409 | Services provided |
| | Fiduciary | 4,008,946 | Services provided |

**Advances To/From Other Funds**

Advances to/from other funds are non-current interfund loans and are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriations and are not expendable available financial resources. The following are advances to/from other funds as of June 30, 2005:

| Receivable Fund | Payable Fund | Amount |
|---|---|---|
| General Fund | Airport | $ 93,000 |
| | Other Enterprise Funds | 248,100 |
| | Sanitation District | 268,211 |
| | | $ 609,311 |

Note 9: **Interfund Transactions** (continued)

### Transfers

Transfers are indicative of funding for capital projects, lease payments or debt service, subsidies of various County operations and re-allocations of special revenues. The following are the interfund transfers for fiscal year ended June 30, 2005:

| Transfer From | Transfer To | Amount | Purpose |
|---|---|---|---|
| General Fund | Human Services Agency | $ 859,137 | Budget support |
| | Health & Welfare Realignment | 127,268 | Unused funding |
| | Community Development Agency | 1,479,206 | Budget support |

| | | 7,997,132 | |
| Nonmajor Enterprise Funds Various | Nonmajor Enterprise Funds | 79,735 | Services provided |
| | | $ 25,935,148 | |

## Note 10: Employees' Retirement Plan and Post Employment Benefits

### A. Defined Benefit Pension Plan

#### Plan Description

The County contributes to the California Public Employees Retirement System (PERS), an agent multiple-employer public employee defined benefit plan. PERS provides retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members and beneficiaries. PERS acts as a common investment and administrative agent for participating public entities within the State of California. Benefit provisions and all other requirements are established by statute. Copies of PERS' annual financial report may be obtained from their executive office – 400 Q Street, Sacramento, CA 95814.

#### Funding Policy

Active plan members in PERS are required to contribute 7 percent (9 percent for safety employees) of their annual covered salary. The County is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The actuarial methods and assumptions used are those adopted by the PERS Board of Administration. The required employer contribution rate for fiscal year 2004/2005 was 8.518 percent for miscellaneous employees and 27.224 percent for safety employees. The contribution requirements of the plan are established by State statute and the employer contribution rate is established and may be amended by PERS.

#### Annual Pension Cost

For fiscal year 2004/2005, the County's annual pension cost of $4,779,184 for PERS was equal to the County's actual contributions. The required contributions for fiscal year 2004/2005 were determined as part of the June 30, 2002, actuarial valuation using the entry age normal actuarial cost method. The actuarial assumptions included (a) 8.25 percent investment rate of return (net of administrative expenses), (b) projected annual salary increases of 3.75 percent to 14.20 percent for miscellaneous plan and 4.27 percent to 11.59 percent for safety plan, depending on age, service, and type of employment, and (c) 3.75 percent per year cost of living adjustment. Both (a) and (b) included an inflation component of 3.5 percent. The actuarial value of PERS assets were determined using techniques that smooth the effect of short term volatility in the market value of investments over a two to five year period (smoothed market value). PERS unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. Initial unfunded liabilities are amortized over a closed period that depends on the plan's date of entry into PERS. Subsequent plan amendments are amortized as a level percent of pay over a closed-20-year period.

Note 10: **Employees' Retirement Plan and Post Employment Benefits** (continued)

A. **Defined Benefit Pension Plan** (continued)

**Three Year Trend Information for PERS**

| Fiscal Year Ending | Annual Pension Cost (APC) | Percentage of APC Contributed | Net Pension Obligation |
|---|---|---|---|
| June 30, 2003 | $ -- | 100% | $ -- |
| June 30, 2004 | 1,667,599 | 100% | -- |
| June 30, 2005 | 4,779,184 | 100% | -- |

B. **Employee Benefits 457 Plan**

**457 Plan**

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan is available to all permanent County employees and permits them to defer a portion of their salary until future years. The deferred compensation is not available until terminations, retirement, death or unforeseeable emergency.

Pursuant to changes in August 1996, of IRC Section 457, in January 1997, the County formally established a trust in which all assets and income of the 457 plan were placed. The assets, all property and rights purchased with such amounts, and all income attributable to such amounts, property, or rights are held in trust for the exclusive benefit of the participants and their beneficiaries. These assets are not longer the property of the County, and as such are no longer subject to the claims of the County's general creditors. As a result, the assets of the 457 plan are not reflected on the County financial statements.

**Post Employment Benefits**

The County has agreed by resolution to pay post-employment health insurance benefits for certain retirees who have retired from employment with the County. These benefits are financed on a pay-as-you-go basis. At June 30, 2005, 305 retired employees were covered and the cost of this coverage for the year ended June 30, 2005, was $947,267.

## Note 11: **Risk Management**

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County has Risk Management Funds (internal service funds) to account for and finance its uninsured risks of loss for public liability, unemployment, health, dental, and vision. The County is a member of the California State Association of Counties of California Excess Insurance Authority, a public entity risk pool currently operating as a common risk management and insurance program for Counties. Should actual loss among participants be greater than anticipated, the County will be assessed its pro rata share of the deficiency. Conversely, if the actual losses are less than anticipated, the County will be refunded its pro rata share of the excess.

As of July 1, 1997, the County is no longer self-insured for Workers Compensation.

The County is a member of the County Supervisors Association of California Excess Insurance Authority, a public entity risk pool currently operating as a common risk management and insurance program for Counties. Under this program, the Risk Management Funds provide coverage for up to a maximum of $100,000 for each general liability claim, and $10,000 for each unemployment claim.

Should actual loss among participants be greater than anticipated, the County will be assessed its prorata share of the deficiency. Conversely, if the actual losses are less than anticipated, the County will be refunded its prorata share of the excess. Settled claims have not exceeded commercial coverage in any of the past three fiscal years.

All funds of the County participate in the program and make payments to the Risk Management Funds based on estimates of the amounts needed to pay prior and current year claims. At June 30, 2005, the Risk Management Fund's fund equity was $1,545,361. The claims liability of $954,908 reported in the funds at June 30, 2005, is based on the requirements of Governmental Accounting Standards Board Statement No. 10, which required that a liability for claims be reported if information prior to the issuance of the financial statements indicates that it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably determined.

Changes in the County's claims liability amount for the fiscal years 2004 and 2005 were as follows:

| | Balance at Beginning of Fiscal Year | Current Year Claims and Changes in Estimates | Claims Payments | End of Fiscal Year |
|---|---|---|---|---|
| 2004 | $ 660,456 | $ 1,669,462 | $ 1,352,345 | $ 977,573 |
| 2005 | 977,573 | 968,228 | 990,893 | 954,908 |

Note 11: **Risk Management** (continued)

The ultimate settlement of specific claims against the County cannot presently be determined and no provision for any other liability that may result has been made in the financial statements.

Note 12: **Other Information**

**Construction Commitments**

The County has signed agreements to construct various capital improvements subsequent to June 30 2005. The balance owed on the commitments at June 30, 2005, was $42,905.

Note 13: **Contingent Liabilities**

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the appreciable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government expects such amounts, if any, to be immaterial.

The County is involved in several lawsuits. Due to the nature of the cases, County Counsel is unable to estimate at this time the probability of favorable or unfavorable outcomes. Therefore, no provision has been made in the financial statements for a loss contingency.

The Eastern Nevada County Solid Waste landfill is an inactive landfill located between Highway 80 and Hirschdale Road on the east side of the community of Hirschdale. The landfill site was leased to Truckee Sanitary District for a period of time for use as a sanitary landfill. The landfill site is approximately 3 acres in size and located on County property.

Responsibility for the landfill stays with the property owner, not the operator. The landfill falls under the requirements of illegal or abandoned landfills of Title 27 of the California Code of Regulations. As such, the landfill must be investigated, permitted for closure, and closed under these regulations. The final closure and postclosure maintenance plan has been completed and submitted to the Regional Water Quality Control Board and the California Integrated Waste Management Board for approval. The County has not recorded a liability for closure and postclosure costs for the Hirschdale Landfill, however, because it cannot give an estimate of postclosure costs until the closure plan is approved and the County is given its requirements for postclosure monitoring by the California Integrated Waste Management Board.

Note 14: **Joint Agencies**

The CSAC Excess Insurance Authority is a joint powers authority organized for the purpose to develop and fund excess insurance programs for member counties. The Authority operates public entity risk pools for workers' compensation, comprehensive liability, property, medical malpractice, and pool purchases excess insurance and services for members. The Authority is under the control and direction of a board of directors consisting of representatives of the fifty member counties.

Complete audited financial statements for CSAC Excess Insurance Authority can be obtained from the Authority's office at 3017 Gold Canal Drive, Suite 300, Rancho Cordova, California 95670.

Note 15: **New Accounting Pronouncements**

The Governmental Accounting Standards Board (GASB) recently released several new accounting and financial reporting standards. Three of the new standards, GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section, an amendment of NCGA Statement 1*, and GASB Statement No. 45, *Accounting and Financial Reporting by Employers of Postemployment Benefits Other than Pensions (OPEB)*, may have a significant impact on the County's financial reporting process.

GASB Statement No. 42 establishes accounting and financial reporting standards for impairment of capital assets. GASB No. 42 will be effective for the fiscal year ending June 30, 2006.

GASB Statement No. 44 guides the preparation of supplementary information included in the statistical section. This new statement provides specific requirements for the information presented in accordance with GASB Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, and will enhance comparability among governments presenting a statistical section. GASB No. 44 will be effective for the fiscal year ending June 30, 2006.

GASB Statement No. 45 establishes standards for the measurement, recognition and display of OPEB expenses/expenditures, related assets and liabilities, note disclosures and, if applicable, required supplementary information in the financial reports of state and local government employers. GASB No. 45 will be effective for the fiscal year ending June 30, 2008.

Note 16: **Subsequent Events**

The County has finalized the purchase of two buildings since June 30, 2005. In August, the Laura Wilcox building was purchased for a cash price of $880,000. This building, located at 208 Sutton Way, will be used for children services programs under the Human Services Agency.

In November 2005, the County purchased a second building located at 500 Crown Point Circle in Grass Valley. The building was purchased for $3,220,000 and financed through a Lease-Leaseback arrangement. The County is in the process of determining which programs and services will be best suited for this location.

# REQUIRED SUPPLEMENTARY INFORMATION

## County Employees Retirement Plan (Defined Benefit Pension Plan)

### Schedule of Funding Progress

The tables below shows a three-year analysis of the actuarial value of assets as a percentage of the actuarial accrued liability and the unfunded actuarial accrued liability as a percentage of the annual covered payroll as of June 30:

Funded Status of Miscellaneous Plan

| Valuation Date | Entry Age Normal Accrued Liability | Actuarial Value of Assets | Unfunded/ (Overfunded) Liability | Funded Ratio | Annual Covered Payroll | UAAL as a % of Payroll |
|---|---|---|---|---|---|---|
| 6/30/02 | $ 129,437,147 | $ 136,577,817 | $ (7,140,670) | 105.5% | $ 37,803,606 | (18.9)% |
| 6/30/03 | 152,095,436 | 139,163,335 | 12,932,101 | 91.5% | 40,784,868 | 31.7% |
| 6/30/04 | 169,243,317 | 148,579,518 | 20,663,799 | 87.8% | 41,529,003 | 49.8% |

Effective fiscal year 2002-03, CalPERS requires cities with less than 100 active members in the plan to participate in the risk pool. The table below shows the two year analysis of the risk pool's actuarial value of assets as a percentage of the actuarial accrued liability and the unfunded actuarial accrued liability as a percentage of the annual covered payroll as of June 30:

Risk Pool's Funded Status of Safety Plan

| Valuation Date | Entry Age Normal Accrued Liability | Actuarial Value of Assets | Unfunded/ (Overfunded) Liability | Funded Ratio | Annual Covered Payroll | UAAL as a % of Payroll |
|---|---|---|---|---|---|---|
| 6/30/03 | $ 4,270,573,982 | $ 3,577,742,166 | $ 692,831,816 | 83.8% | $ 476,089,674 | 145.5% |
| 6/30/04 | 5,383,921,942 | 4,424,586,846 | 959,335,096 | 82.2% | 575,296,434 | 166.8% |

## BUDGETARY BASIS OF ACCOUNTING

The County follows these procedures annually in establishing the budgetary data reflected in the financial statements:

1. The County Executive Officer submits to the Board of Supervisors a proposed draft budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them.

2. The Board of Supervisors reviews the proposed budget at regularly scheduled meetings, which are open to the public. The Board also conducts public hearing on the proposed budget to obtain comments from interested persons.

3. Prior to July 1, the budget is adopted through the passage of a resolution.

4. From the effective date of the budget, which is adopted and controlled at the service budget unit level, the amounts stated therein, as proposed expenditures become appropriations to the various service budget units. The Board of Supervisors may amend the budget by motion during the fiscal year. The County Executive Officer may authorize transfers from one object or purpose to another within the same department.

Formal budgetary integration is employed as a management control device during the year. The County presents a comparison of annual budgets to actual results for all governmental funds except for debt service funds, the expenditures of which are controlled by provisions of debt agreements. The amounts reported on the budgetary basis are generally on a basis consistent with accounting principles generally accepted in the United States of America (GAAP).

The County uses an encumbrance system as an extension of normal budgetary accounting for the general and other governmental funds. Under this system, purchase orders, contracts, and other commitments for the expenditures of monies are recorded in order to reserve that portion of applicable appropriations. Encumbrances outstanding at year end are recorded as reservations of fund balance since they do not constitute expenditures or liabilities. Unencumbered appropriation lapse at year-end. Encumbered appropriations are carried forward in the ensuing year's budget.

## INFRASTRUCTURE ASSETS REPORTED USING THE MODIFIED APPROACH

The County manages its maintained road system using the Metropolitan Transportation Commission's Pavement Management program (Program) and accounts for them using the modified approach. The Program establishes a Pavement Condition Index (PCI) on a scale from zero to one hundred (0-100) for each road segment being maintained by the Department of Public Works. The Program has defined the pavement of roads with PCIs of 40 or better to be in a "Fair" or better condition and roads with a PCI of 55 or better to be in a "Good" or better condition. The system-wide average PCI number for all paved or chip sealed roads in the County maintained road system is calculated on a weighted by section, road area basis. The amount that an individual road section's condition contributes to the overall system average rating is proportionate to the amount of the total systems surfaced area that the individual segment contains. It is the County's policy relative to maintaining the maintained road system to keep an average PCI rating of 62.

The first complete condition assessment of the County's maintained road system was completed in FY 2004-05. As of June 30, 2005, the County's road system was rated at a PCI of 67, for a three-year average PCI rating of 65.

**Pavement Condition Index of County's Maintained Road System**

| | 2005 | 2004 | 2003 |
|---|---|---|---|
| PCI Index | 67.00 | 68.00 | 60.50 |

For the year ended June 30, 2005, actual preservation maintenance and general maintenance costs were $2,676,307, which was $702,058 or 36% greater than estimated. Projects that were deferred due to anticipated reductions in State funding were later restored resulting in the increase. A three year history of planned to actual expenditures is provided below.

**Comparison of Planned-to-Actual Preservation and Maintenance**

| | 2005 | 2004 | 2003 |
|---|---|---|---|
| Planned | $ 1,974,249 | $ 4,083,793 | $ 7,631,291 |
| Actual | 2,676,307 | 3,887,933 | 6,479,878 |

**Source:**
(1) Estimated from US Census Bureau
(2) From Table Assessed Value County-wide Taxable Property
(3) The Legal debt limit is 5.00% of Assessed Valuation
(4) Legal Debt Margin is computed by subtracting the County legal general obligation bonded debt from the Legal Debt Limit. Included in Gross Bonded Debt is the 2001 Certificates of Participation

* 2004 Estimate used as 2005 estimate unavailable
