

**Benjamin Franklin V4 Booth  
from Pakflatt**

**Customer Assembly Instructions**

1

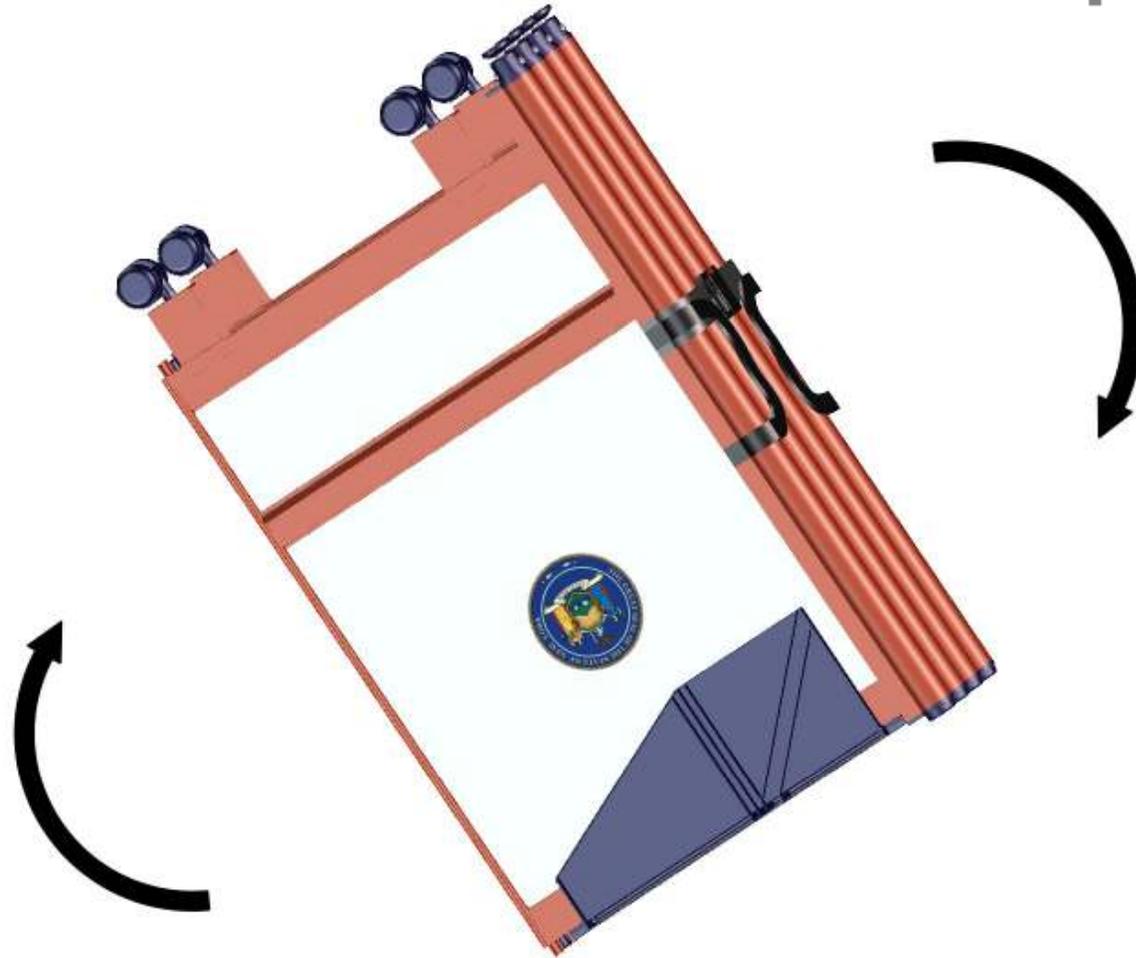

pakflatt™

The booth is on wheels so it will slide out of the box. Remove by pulling on the fabric handles.  
Leave plenty of room for assembly

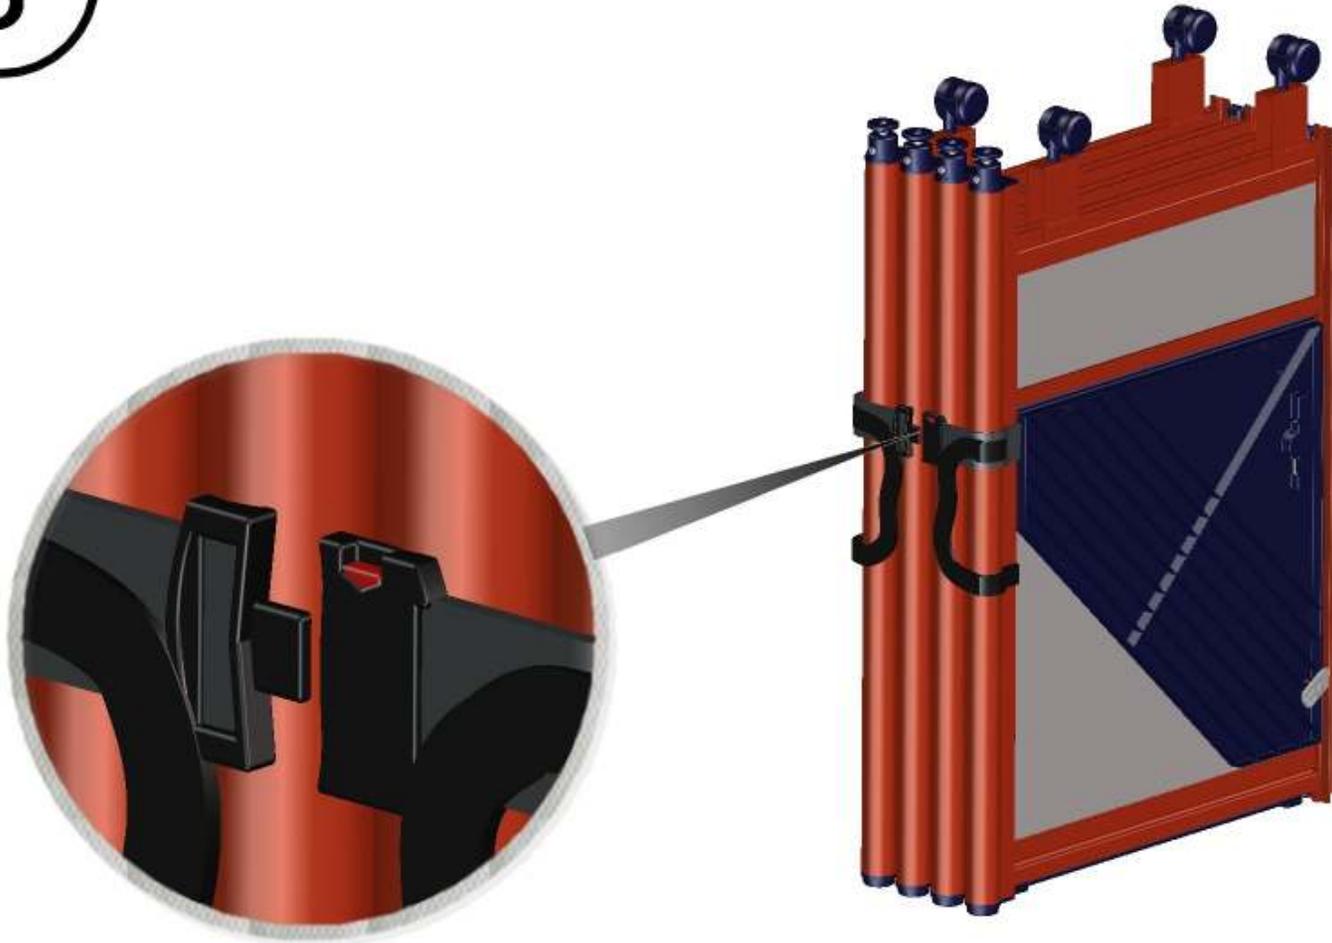

2

pakflatt™

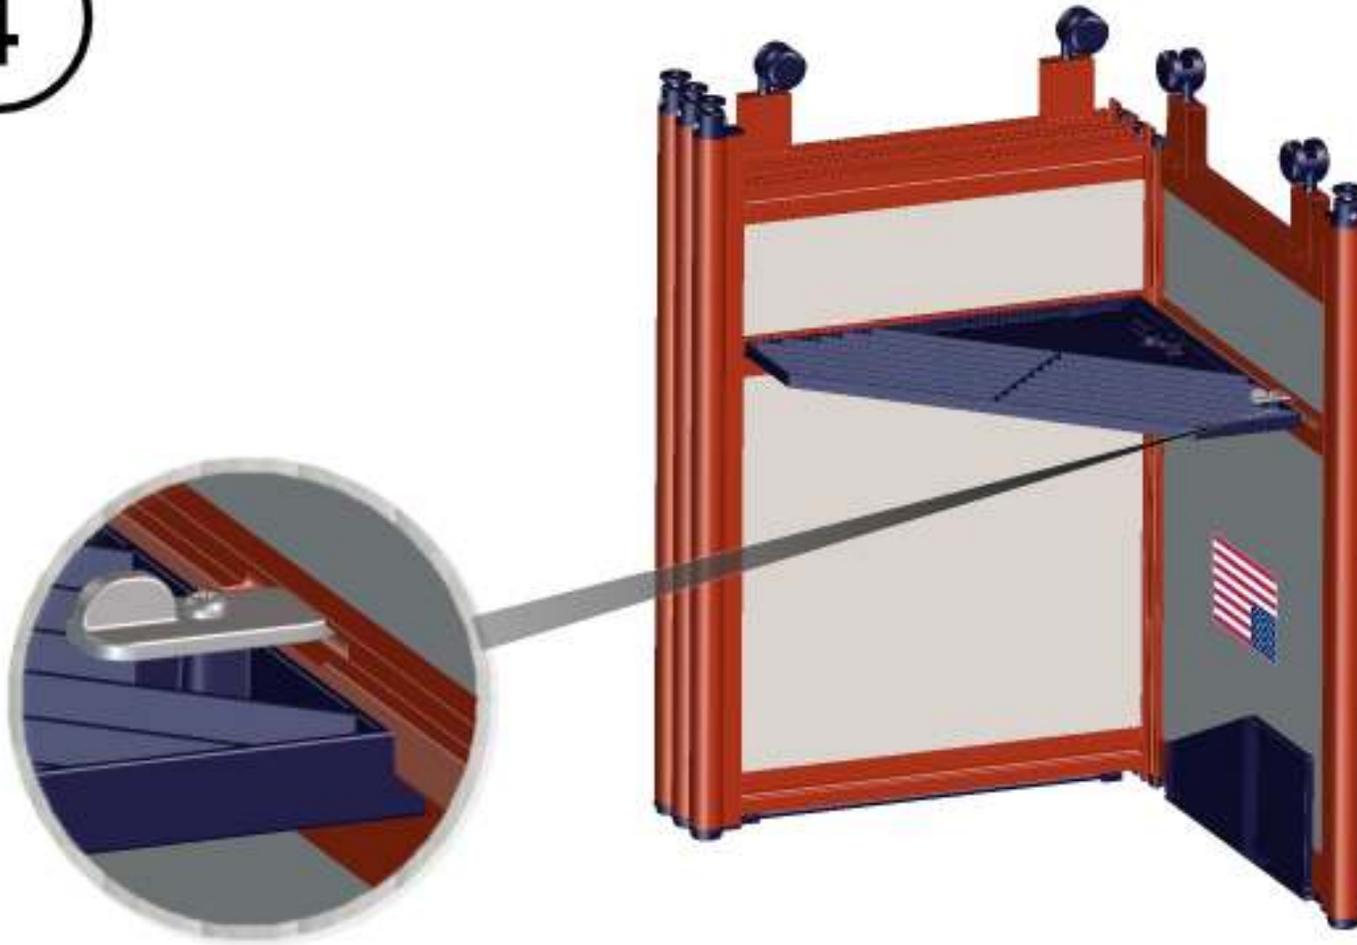

Holding the handles and supporting the booth, rotate until the wheels are facing upwards.

3

Undo the buckle by pressing the red button.  
Open out the first section

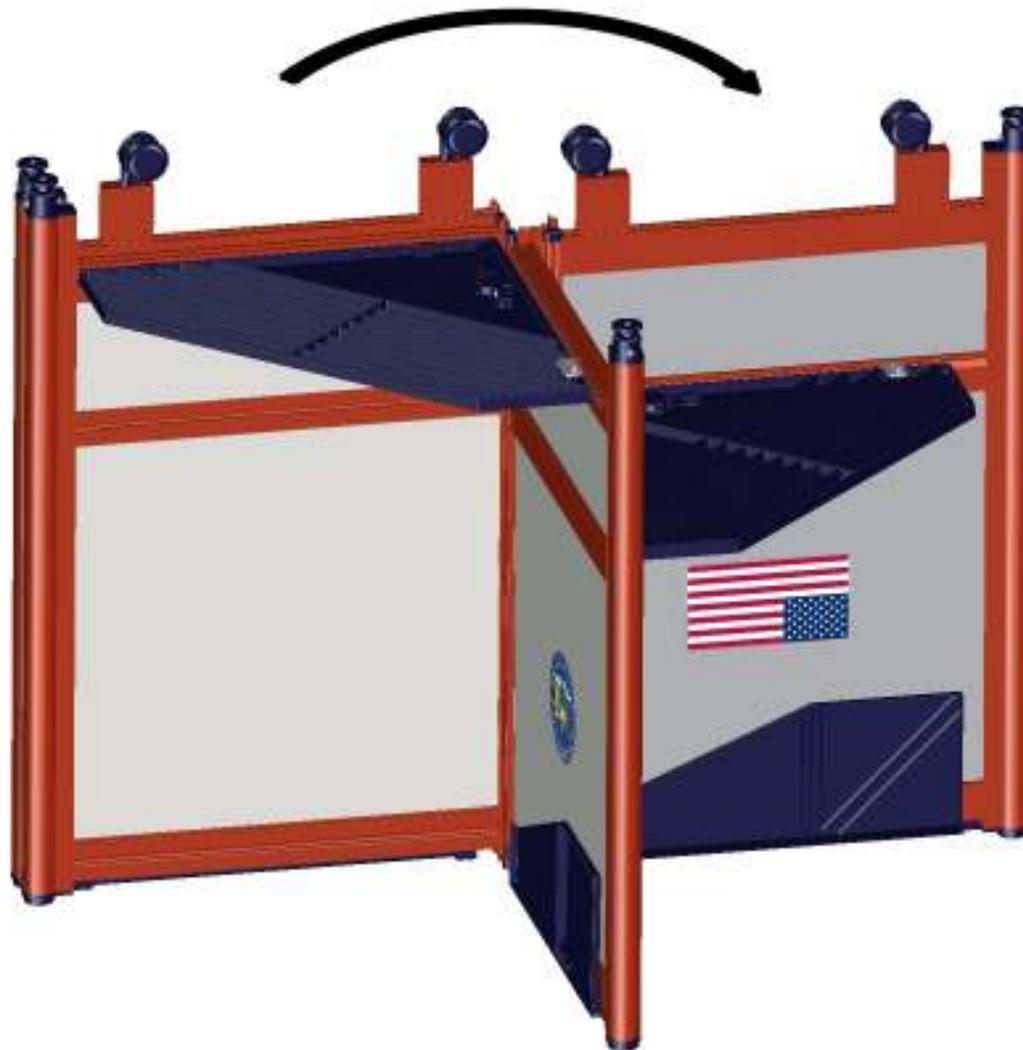

4

Rotate the grey catch and raise the writing table. The edge of the writing table will engage with the cross rails

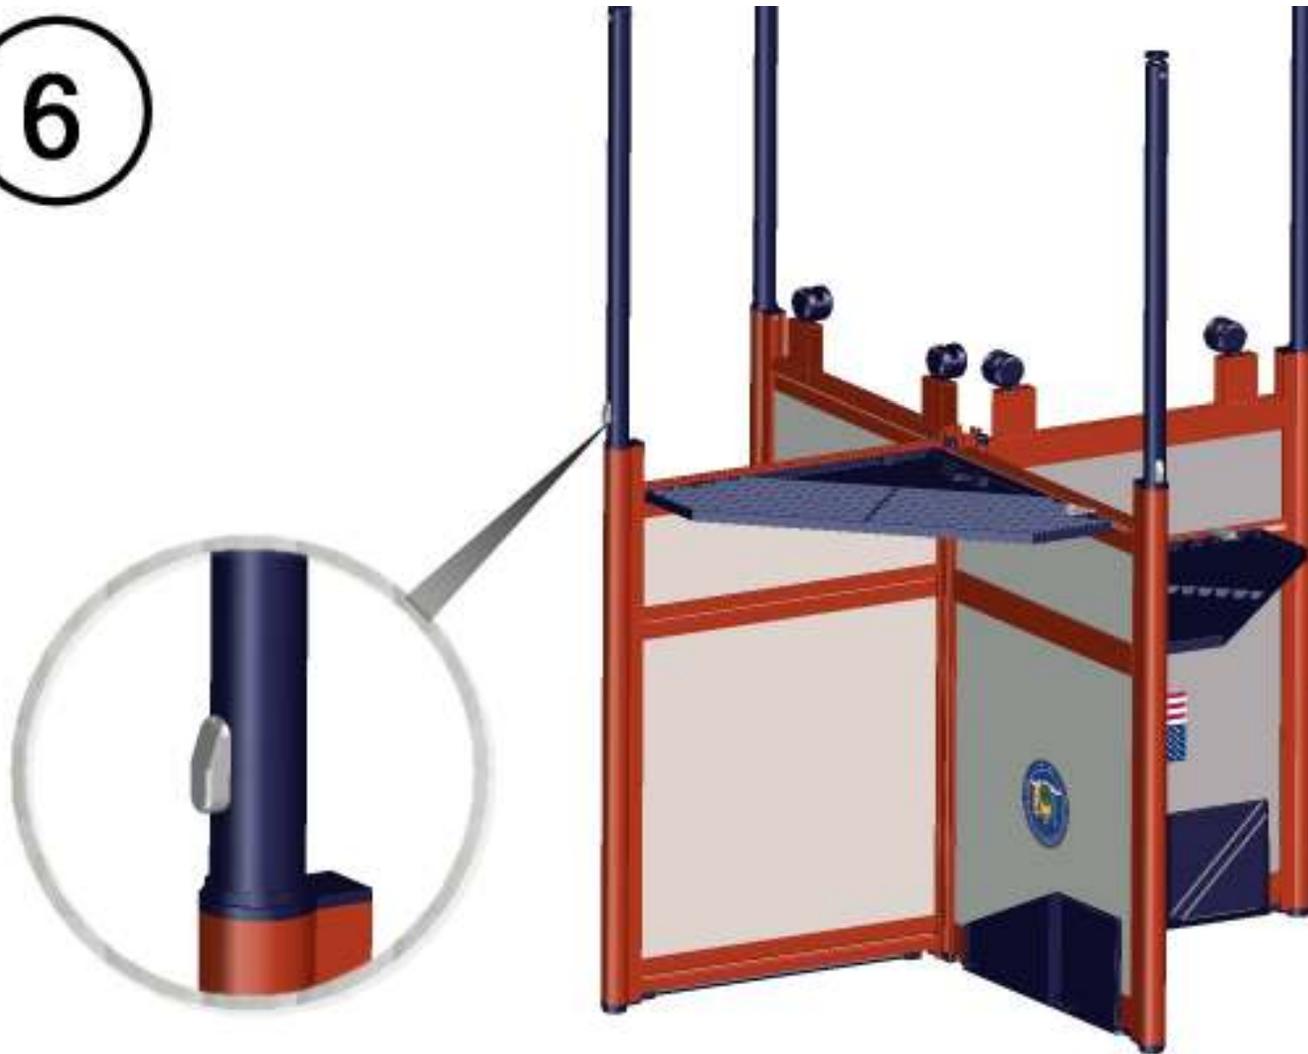

5

pakflatt™

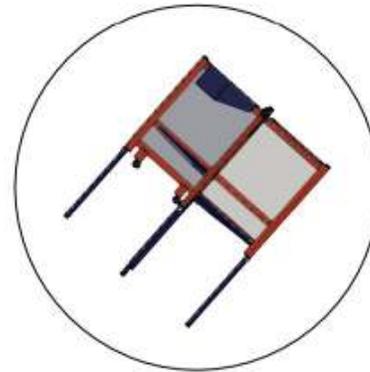

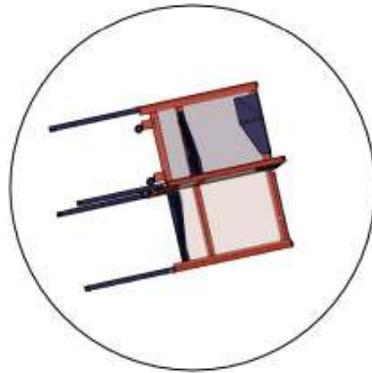

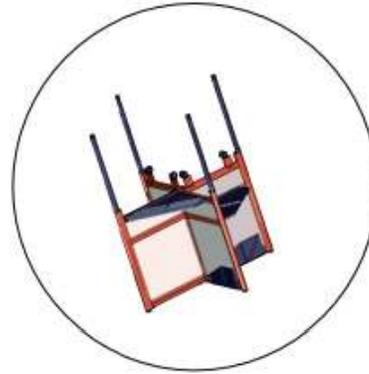

Repeat instruction 4 on the other sections as they are opened out.

6

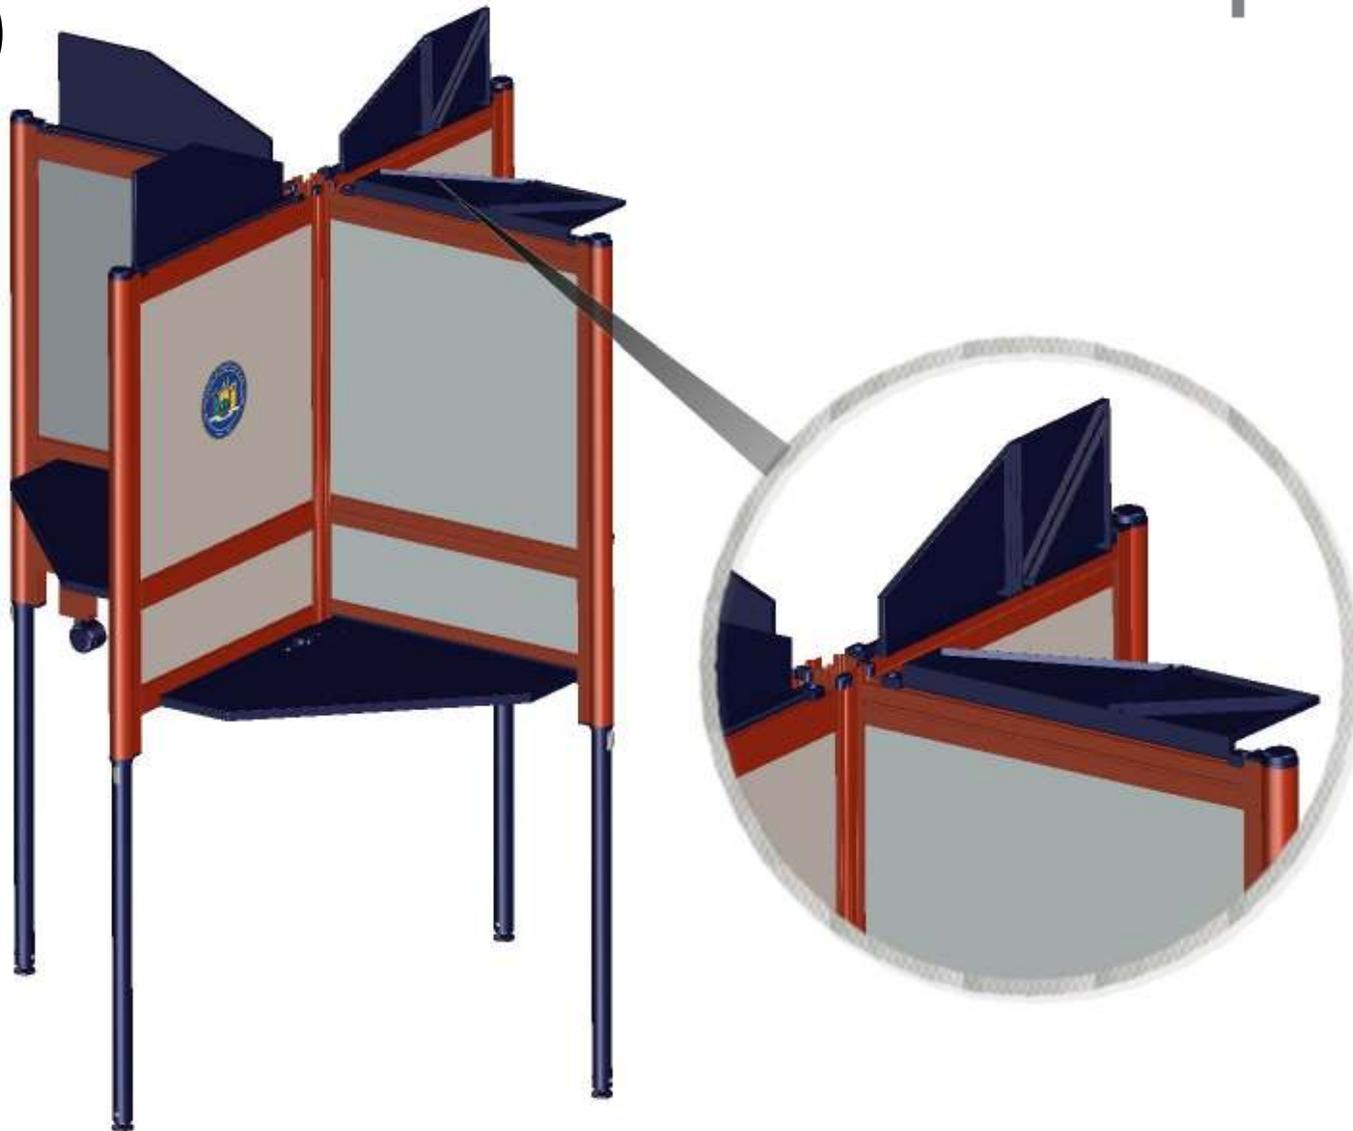

Extend each telescopic leg until the button pops out.  
Push the leg back in position so that it cannot be  
pushed in again accidentally.

7

Leaving plenty of room, lower the booth until it is lying on its side. Raise the booth to its working position.

8

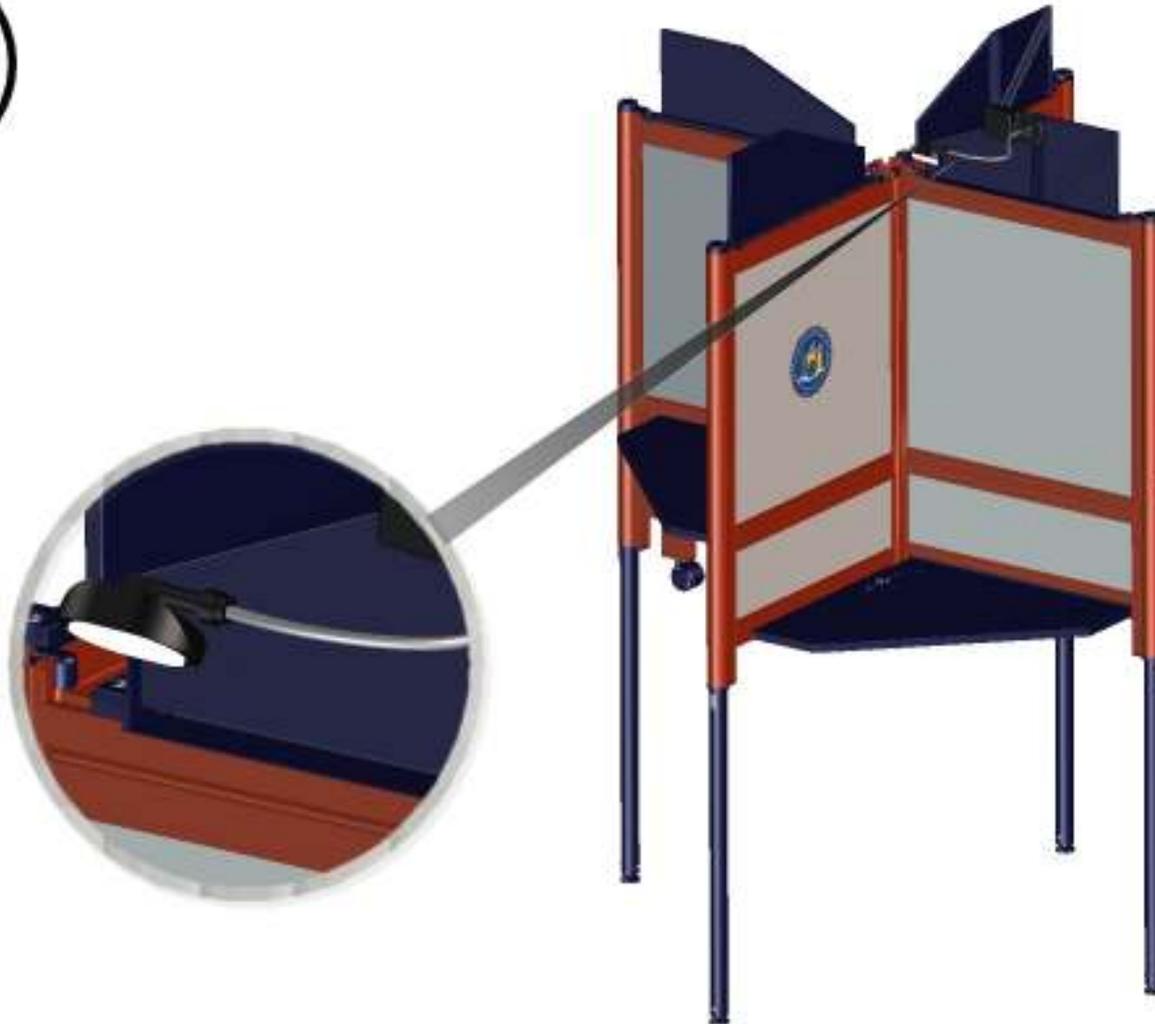

Rotate visors to their vertical position.

9

If necessary, use the adjusters at the bottom of each leg to level the booth.

10

Attach the booth light to the visor and turn it on.  
(If applicable)

11

pakflatt™

**When dismantling the booth, simply repeat the instructions in reverse.**
